A Complete Line of Nursery Stock *Direct to Grower*

1942 a GARDEN for Every HOME

New Morrison **BLACK RASPBERRY**

(Note actual photograph at left)

The giant of the Black Raspberry family. Jet black berries; nearly an inch in diameter. The first Blackcap ever introduced that is superior to the old variety, Cumberland. An outstanding rapid grower. Produces enormous crops. Very thrifty and disease-resistant. Will grow on any soil. A brand new variety of real merit. See page 41 for further description.

PRICE—1-Year Plants:

\$0.15	\$0.75	\$1.35	\$2.25	\$4.00	\$7.50

New Thornless **BOYSENBERRY**

(Note actual photograph below)

Entirely thornless! Think of picking real large berries without a chance of scratching your hands! These large, sweet, juicy berries are often 2 inches in length. Similar to the common thorny Boysenberry, but ripens two weeks earlier. One of the finest to eat out of hand or for home use. Very hardy. See page 31 for transplants.

FREE! 1 Platycodon

Blue Moon Juniper

(*Juniperus scopulorum*). Very hardy. Unusual bluish color and attractive, symmetrical, compact growth. Unlike many evergreens, this tree is brightest in color during the summer months—dry weather brings out the color to best advantage. **Balled in peat and burlapped, 24-30 inch trees, \$2.50 each.**

Delphinium

GIANT PACIFIC HYBRID

Something new. Giant stalks 4 to 6 feet tall, bearing enormous flower spikes. Individual blooms are double to semi-double; exceptionally large, often measuring 2 inches across. Delightful shades of blues, lavenders, and mixed colors. Very hardy, mildew resistant, and free blooming. **Strong plants, 30c each; 3 for 75c; 12 for \$2.50.**

Blue Hydrangea

Loveliest Novelty Ever Introduced. Immense blooms of most charming blue color imaginable. Flowers in great profusion. Blooms pink flowers on the one-year stems, followed by blue on the two-year wood. Cover in winter to protect from frost. **Fine, 8-12 inch bushes, 90c each; 3 for \$2.50.**

Platycodon

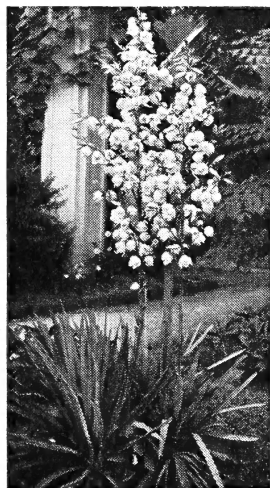

(Blue Balloon Flower)

Large, deep blue, bell-shaped or broadly cup-shaped flowers, growing 1½ to 2 feet tall. Handsome dark green foliage. Very hardy. Will do well in both sun and shade, and will grow on any well drained soil. Blooms July and August. **Strong plants, 20c each; 3 for 55c; 6 for \$1.00.**

Hardy PERENNIALS

Pentstemon, Garnet

Red Yucca

Crimson King Carnation

Hardy! Everblooming! Rich red, double blooms on long stems, from June till frost. Wonderful spicy scent. Perfectly hardy. Blooms first year. Strong plants, 25c each; 3 for 60c.

New Orange Buddleia

During the months of July and August, this unusual plant produces immense numbers of brilliant orange flowers. Fine, field-grown plants, 25c each; 3 for 60c.

Rudbeckia, The King

A new perennial of royal beauty. Large flowers (often 4 inches across) of bright pink with a large center cone of dark brown. Long lasting on the bush and when cut. Starts blooming early July and continues into fall. Hardy and easy to grow. Strong plants, 40c each; 3 for \$1.00.

Red Yucca (Hesperaloe Parviflora). New!

One of the most sensationally popular plants ever grown due to its dazzling color; in May blooms are distinctly red, towards fall the color lightens somewhat to clear pink. Very hardy and easy to grow. Flowers are borne on strong stems 4 to 5 feet high. Should bloom the second year. 2-yr., transplanted, 12-18 inch plants, 45c each; 3 for \$1.20.

Armeria, Glory of Holland

Large, fluffy balls of clear, deep pink, about 2 inches in diameter and are produced on the tip of each stem. Blooms all summer. Valuable for cutting. Field-grown plants, 35c each; 3 for \$1.00.

Garnet Pentstemon This very hardy large-flowering variety is a rich garnet color, blooming freely from June until frost. 12 to 18 inch stems, 6 to 8 spikes at a time. Strong plants, 25c each; 3 for 60c.

Pink Dawn Dianthus One of the finest new plants ever introduced for the rockery or perennial border. Hundreds of flaming, star-shaped flowers borne on a dwarf, bushy plant, resembling a pincushion. Bluish green foliage. Perfectly hardy, and blooms year after year with no attention. Strong, field-grown plants, 25c each; 3 for 65c; 12 for \$2.25.

FREE! 1 Azure Queen Pentstemon

Carnation,
Crimson King

Bleeding Heart (Dicentra Spectabilis). Hardy old favorite with heart-shaped, rose-colored flowers in drooping spikes. Strong, field-grown plants, with 3 to 5 eyes, 35c each; 3 for \$1.00.

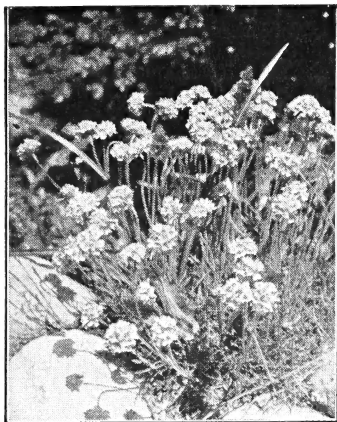

Dwarf Pink Dbl. Baby's Breath Established plants reach a height of 2 feet, and are in bloom throughout the summer and fall. Foliage is a fine blue-green and very graceful. Flowers are double and of a delicate pink. Ideal for cutting. Strong plants, 35c each; 3 for 90c.

Heliopsis Incomparabilis

Flowers are a rich golden yellow, nearly double, and over 3 inches in diameter. Attains a height of about 3 feet; it is of easy growth, and is in bloom continuously from July to Autumn. Strong plants, 35c each; 3 for \$1.00.

Dianthus, Pink Dawn

Armeria, Glory of Holland

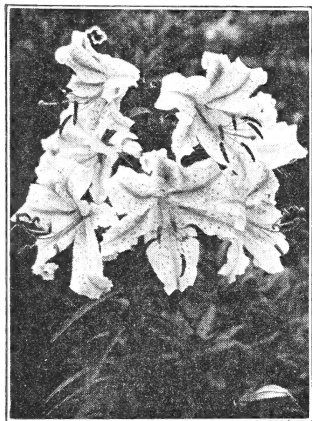

Rudbeckia, The King

Heliopsis Incomparabilis

Hardy Garden Lilies

Auratum Large, fragrant flowers. Delicate ivory color, with chocolate-crimson spots and golden band through center. July to September. Large size bulbs, 30c each; 3 for 75c; 12 for \$2.50.

Lilium Auratum

Tiger Lily

Lilium Speciosum rubrum

Henryi Beautiful golden-apricot flowers, on 3- to 5-foot stems, during August and September. Blooming size bulbs, 25c each; 3 for 65c; 12 for \$2.25.

Philippine Lily Long, trumpet-shaped flowers, white with reddish brown shading on exterior. Interior white with lovely green throat. Very fragrant. Blooms August to frost. Strong bulbs, 25c each; 3 for 65c; 12 for \$2.25.

Regal Lily Tall spikes of white flowers, slightly suffused with pink, with a beautiful glow of canary-yellow at the center. Exquisite perfume. Starts blooming end of June. Large size bulbs that will bloom this summer, 15c each; 3 for 39c; 12 for \$1.20; 100 for \$8.50.

Red Russian Lily (Atro-Sanguinea) Wide trumpet-shaped, glowing red richly shaded orange flowers on 1½- to 2-foot tall stems. May-June blooming. Does well on any kind of soil and will withstand every kind of weather. Very hardy. Strong bulbs, 35c each; 3 for \$1.00.

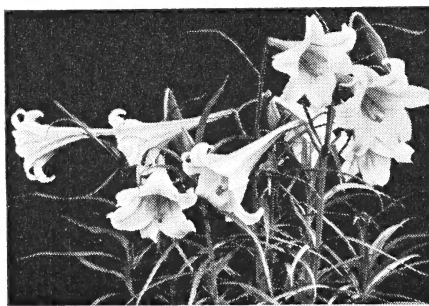

Speciosum Rubrum One of the grandest of all Lilies—extra large flowers of pink and white blend with crimson spots; sweetly fragrant. The petals are well rolled back and are handsomely spotted. Blooms August to September. Strong bulbs, 30c each; 3 for 75c; 12 for \$2.50.

Sunset Lily (Pardalinum Giganteum) Vigorous, hardy, of easiest culture. The petals are well rolled back and are a fiery sunset-red, fading to a beautiful yellow inside, delightfully peppered with dark brown spots. The anthers are a chocolate-brown. Stalks often 7 feet tall, often bearing a dozen or more flowers in July. Strong bulbs, 45c each; 3 for \$1.20.

Tenuifolium Lily (Coral Lily) A beautiful little scarlet midget. Plant out front in your Lily bed or use in your rock garden. One of the prettiest little Lilies in cultivation. 18 inches high, coral-red flowers. Strong bulbs, 25c each; 3 for 65c; 12 for \$2.25.

Tigridia (Aztec) Lily A great garden novelty, direct from Mexico. Grows well all over the United States, and as far north as Canada. Blooms continuously from July until frost. Flowers, which are brightest yellow to deepest scarlet, are 6 to 8 inches across. Tigridia should be planted and grown the same as Gladioli. The flowers are oddly marked at the cup-shaped center, and the outer petals are in various colors. Large size bulbs. Strong bulbs, 20c each; 3 for 60c.

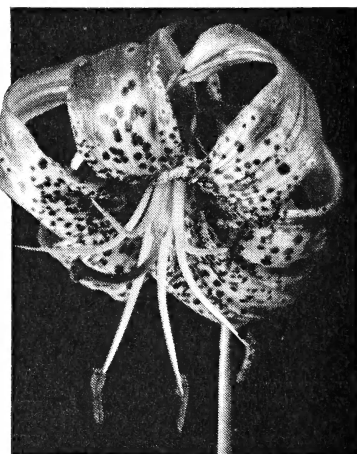

Double Tiger Lily The finest form of Tiger Lily with the richest color. Large, shapely double flowers are of a rich dark salmon-orange spotted with glossy black. The most dependable double lily we have. Strong bulbs, 25c each; 3 for 65c; 12 for \$2.25.

3 Generations of Ackermans

HAVE BEEN PLEASING THEIR CUSTOMERS FOR 51 YEARS

We want first of all to thank our old friends and new customers that have ordered from us last spring—it helped to make our 50th Anniversary Year the most happy one. Letters from our old friends make us feel that we have been right in our business dealing all through these fifty years, and we pledge to you, our old and new customers, nothing new, but the same old-fashioned farmer-to-farmer square deal policies—they have proven the one and only way to do business.

We have gone through times like these before, and history is again repeating itself—wages, material and everything is going up and up—the cost of growing, shipping and handling nursery stock is greatly advanced; fortunately for our customers, our stock has been grown before the big advances have taken place. Today good nursery stock is about the cheapest item you can buy. We have not raised our prices except to take care of the additional cost of labor and material that will be involved in filling your order.

We cannot urge you too strongly to order early to be sure of securing the stock you want, and here is why: Some stock is very scarce, especially strawberry plants or stock that had to make up in one season, which covers many, many items; this was caused by

the extreme drought we had throughout the summer of 1941. Regardless of price, there will not be enough to supply the demand, for thousands upon thousands of people, in times like these, realize how wise the folks are that have a berry patch or an orchard, and for their own security, place large orders for the first time in their lives. We need not tell you the importance of planting this year—you know too well the wisdom of raising your own fruits, etc., in the years immediately ahead. We have a fairly good supply of practically everything we list; however, we feel that 1942 will be an unusual year, and we will be sold out of many items long before the season is over. We advise you to order early so that we can reserve the stock for you.

As in the past, ACKERMANS again assure you of the same high quality stock—the same square deal policies—the same low bargain prices, and most important of all—the same personal service in filling your orders. We have been here in Bridgman for over fifty years, and through boom times and hard times, have figured the same margin of profit. We know we cannot do business with everyone, but want to do business with good folks that believe in old-fashioned honesty and a square deal.

To our new friends who are receiving our catalog for the first time we want to assure you that your order will be filled with high quality stock that will make you glad you tried ACKERMANS.

We Grow because we give you Big Values

100,000 Satisfied Customers—In Every State in the Union Plant Our Hardy Stock—the Reasons are Simple

So many customers cannot be wrong—they buy from us year after year, for they know our stock can be depended upon. Here are some of the reasons:

We sell only the best hardy Northern grown stock at lowest possible prices.

We promise a fair and square deal to everyone—and make good our promise.

We ship stock subject to examination before payment.

WHY Can We Sell Such Fine Stock at Such Low Prices?

BECAUSE—

We sell direct from our catalog only—you have no agents' commission to pay.

We do not spend thousands of dollars on colored pictures in our catalog. We pass that saving on to you.

We purchase no large advertising space—we depend largely upon our friends and customers to advertise our stock.

You will find that this is a bargain book which is made especially for farmers, home owners, fruit growers and gardeners; giving them a chance to buy direct from a nursery at wholesale prices.

We wish to make clear that all stock in these bargains is the same high quality stock offered at regular catalog prices. By placing your order with us, you will be sure of receiving plants, trees, etc., that are first class and up to grade in every respect.

We have been growers for over forty years, and have farms with the best of soil, tractors, trucks, packing houses, and everything necessary to grow and pack nursery stock, making the handling charge much cheaper; all of these savings are passed on to our customers—we work on a very small margin of profit.

We also wish to sincerely thank all of our old customers for their continued patronage. As the bulk of our new business comes from unsolicited patrons recommended by our satisfied customers, this shows confidence in The Ackerman Nurseries, on which we base our hope of future business.

NOTE: New discounts on early orders. Also additional premium. See page 6 for Free Premium.

MICHIGAN STATE DEPARTMENT OF AGRICULTURE

Orchard and Nursery Inspection
Certificate of Nursery Inspection No. 425

This is to certify that the Nursery Stock of The Ackerman Nurseries, Bridgman, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases.

This certificate to be void after September 14, 1942. C. A. Boyer, Director Bureau of Orchard and Nursery Inspection, Lansing, Mich., August 25, 1941.

LEO V. CARD, Commissioner.

WE TREAT YOUR STOCK BEFORE WE SHIP WITH

VITAMIN B₁

Everyone that raises plants, trees and shrubs for either pleasure or profit has been interested in Vitamin B₁. Better Homes & Gardens and other magazines have given it wide and favorable publicity. What's it all about? Will it do the marvelous claims made for it? Well—here is our experience:

Our experience is all in favor of Vitamin B₁. There is one thing absolutely certain—Vitamin B₁ cannot possibly do the stock any harm, and we feel that in thousands upon thousands of cases there is a soil deficiency in Vitamin B₁, where it will do a great deal of good.

Because of the continued favorable results from our tests, we will again treat every shipment of nursery stock with Vitamin B₁ before it leaves our packing house. To our knowledge, we are the only nursery that offers this **pre-shipment-treatment**. In our 51st year we continue to give you this service at no extra cost.

For those who desire to continue this Vitamin B₁ treatment, note special offer below.

NO FUSS — NO MESS — NO BOTHER

Simply remove the nozzle from your garden hose, drop a VITAMIST cartridge into the hose, replace the nozzle, and turn on the water. **NOTHING ELSE LIKE IT.** One cartridge will VITAMIZE 1,500 square feet.

THIRTY WEEKS' SUPPLY \$1.00
—Postpaid

Packed 30 cartridges in a box—enough to VITAMIZE 1,500 square feet once a week for 30 weeks.

Big Gift Planting of Summer-Flowering Hyacinth

FREE—With Early Cash Orders

To every customer who sends us an order before April 1st, 1942, accompanied by cash in full at regular catalog rates (this doesn't apply on bargains or special quotations), and who in addition sends us the names and addresses of three fruit growers, or purchasers of nursery stock, we will send absolutely free the following number of Summer-Flowering Hyacinth bulbs.

- 4 Hyacinth bulbs (priced at 60c) free with cash orders between \$1.00 and \$3.00.
- 8 Hyacinth bulbs (priced at 95c) free with cash orders between \$3.00 and \$5.00.
- 12 Hyacinth bulbs (priced at \$1.25) free with cash orders between \$5.00 and \$10.00.
- 25 Hyacinth bulbs (priced at \$2.00) free with cash orders for \$10.00 or more.

We can handle and ship a \$10.00 order with very little extra expense over a smaller order and we pass the saving on to you in this premium value. **Let your neighbor help.** Two persons may combine orders and divide the premium if shipped to one person.

Be sure to send the three names and addresses with your order. (Use space provided on back of order sheet.) The gift positively will not be sent unless customer complies with this condition. This offer open until April 1st, 1942, only. Our supply of Summer-Flowering Hyacinth is too limited to make this offer effective after April 1st. On all cash orders received after April 1st, when accompanied by three names referred to, we will include the Summer-Flowering Hyacinth bulbs if still available; but if not, we will include additional nursery stock of our own selection as to variety and value.

No special bargain collections are included in this free plant offer. Nor cash orders where a special reduced price has been quoted.

Summer-Flowering Hyacinth (Galtonia—Hyacinthus Candicans)

Plant in Spring — Bloom All Summer

A pure white, Summer-Flowering Hyacinth. 20 to 30 bell-shaped flowers on huge 3- to 5-ft. stems. Plant in small groups or here and there in perennial beds. They bloom freely and will grow in all kinds of soil. Plant 4 inches deep. Culture same as Gladioli.

Blooming size bulbs—3 for 45c; 6 for 70c; 12 for \$1.25; 25 for \$2.00; 50 or more at 6c each, net.

**We Aim to Tell You the Truth—We Are Farmers, Too, and Don't Try to Sell
You Any Varieties We Ourselves Would Not Plant**

No Cash Payment Before Shipment

any money. Make out your order at full prices listed in catalog, and instruct us to ship C.O.D., express or parcel post, subject to your examination by express only, as the postal authorities do not permit examination of parcel post shipments.

Look over the shipment and see for yourself whether the stock is in good condition. If shipment is satisfactory, pay your express agent the amount due and the plants are yours—still covered by our guarantee. What could be more fair? We simply must furnish good nursery stock or we couldn't possibly afford to make this offer.

We would advise all small shipments sent by mail, and will send your order by parcel post C.O.D. for purchase price, plus postage, if you prefer. All such shipments are fully covered by our guarantee.

NOTICE: The above offer does not apply on orders amounting to less than \$3.00; on Special Bargain Collections; Special Quoted Prices; nor on any orders specifying shipment later than April 25th, 1942. Cash in full must accompany all orders under \$3.00, or those calling for shipment later than April 25th; but on such orders customers will be entitled to our cash discounts from regular catalog rates, as explained at the right.

WE GUARANTEE SAFE ARRIVAL OF ALL SHIPMENTS MADE ON OR BEFORE MAY 25TH, 1942.

We reserve the right to cancel all printed prices without notice.

You examine stock before you pay. This offer applies only on orders amounting to \$3.00 or more, for shipment on or before April 25th, 1942.

We are one of the first nurseries in this section of the country to adopt this unique selling plan, whereby it is possible for customers to order without sending

Order Early and Make a Big Saving

20% DISCOUNT ON ALL CASH ORDERS
(Except on Bargain Offers and Special Quotations) Received Before January 24th, 1942.

15% DISCOUNT ON ALL CASH ORDERS
(Except on Bargain Offers and Special Quotations) Received from January 25th to February 10th, 1942.

10% DISCOUNT ON ALL CASH ORDERS
(Except on Bargain Offers and Special Quotations) Received from February 10th to March 1st, 1942.

To those who wish to send all cash with order, we offer these special cash discounts from our regular printed prices (except on Bargain Offers and special quotations).

Pay Cash and Save Additional Cost on C. O. D. Shipments

Some concerns add 5 per cent to their list price, in addition to the required C.O.D. fees, if order is for C.O.D. shipment. Knowing our stock will be satisfactory, we will ship C. O. D., if you prefer, at our regular printed price, although we want to remind you of the collection and money order fees on C.O.D. shipments. These charges, over which we have no control, or do not receive one cent of the fees, amount to approximately 5 per cent on average orders. You can save this 5 per cent by sending cash with order. You take no chances—all shipments are backed by our guarantee.

Ackerman Nursery Stock Satisfies

OUR GUARANTEE THE ACKERMAN NURSERIES

We guarantee all of our nursery stock to be just as represented in our catalog, fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer alive, and in perfect growing condition. Furthermore, we will, at our option, either replace free of charge, or refund purchase price on any stock that arrives in bad condition, provided claims are made 10 days after arrival. After 10 days, it is mutually agreed that stock is satisfactory. Do not return plants unless so instructed by us.

Continued growth depends upon soil, climatic conditions, planting, and care—conditions we cannot control—hence is not guaranteed. We will, however, replace all stock that fails to grow at half price if reports are made prior to October first.

It is mutually agreed that in any event we will not be liable for more than the purchase price of the stock. It is understood and agreed between the customer and ourselves that the purchaser's order, and our acknowledgement of its receipt, shall constitute a mutual acceptance of the above terms and conditions.

Plants attain 2½ feet in height, profusely covered with large, bell-shaped double flowers. Bloom May to July. Beautiful array of color, ranging from white, pink, rose through all shades of blue and purple. No color guaranteed for mixed only.

Price: Field-grown plants, 20c each; 3 for 50c; 7 for \$1.00.

ACKERMAN'S CHOICE

Red Silver Flowering Crab

Red Silver Flowering Crab The beautiful Flowering Crab that is completely red in flower, leaf, bark and fruit—rich maroon-red from top to bottom. Most Flowering Crabs are preferred due to the mass of blooms which they produce for a short time, but the Red Silver is beautiful from spring until late fall because of its all-over red color. The leaves are somewhat cut-leaf, the under side of which are tinselled with silver—the blend of maroon and silver is a unique combination throughout the season. The wonderfully fragrant red flowers are large, partially double and altogether lovely. One of the greatest hardy Flowering Crabs ever introduced. 2-yr., 2-3 ft. trees, 55c each; 3 for \$1.50.

Siberian Crab (*Pyrus Baccata*). This extremely hardy ornamental tree is covered with a profusion of large white to pink, fragrant flowers in the early spring, which are followed by bright red and yellow fruit, exceedingly fine for jellies and pickling. Has dense bright green foliage. Grows on any soil. Used extensively for hedges and windbreaks. 2-yr., 18-24 inch trees, 20c each; 3 for 50c.

Bechtel's Double Flowering Crab

A Rose in Disguise! The only genuine Double-Flowered Crab. Makes a medium-sized tree; perfectly hardy. When in bloom, is covered with delicate pink, perfectly double, small rose-like flowers of delicious fragrance. Blooms very young. 2-yr., 2-3 ft. trees, 60c each; 3 for \$1.50.

Red Flesh Crab Something real new! Red flesh, red skin, red flowers. Its flowers are a beautiful red color, making it one of the finest ornamental trees. Fruit is good sized, and when fully ripe the flesh is a good dark red all the way through. Makes beautiful bright red, delicious apple sauce and jellies. Good to eat fresh. Bears very young, and is very hardy. 2-yr., 2-3 ft. trees, 60c each; 3 for \$1.50.

European Mountain Ash

(*Sorbus Aucuparia*.) A hardy, medium size tree; head dense and regular. Covered from July until winter with large clusters of bright red berries. Reaches height of 25 to 30 feet. Beautiful and attractive. Strong, 2-yr., 3-4 ft. trees, 50c each; 2 for 90c. 3-yr., 4-5 ft. trees, \$1.00 each; 2 for \$1.80.

Japanese Red-Leaved Maple

Hardy, dwarf growing tree, seldom maturing over 10 feet. Their indented leaves are vivid blood-red in spring, which dulls to bronzy purple-red or bronze-green toward fall. Fine trees, 2-yr., 2-3 ft., \$1.50 each; 2 for \$2.50.

Paul's Double Scarlet Thorn

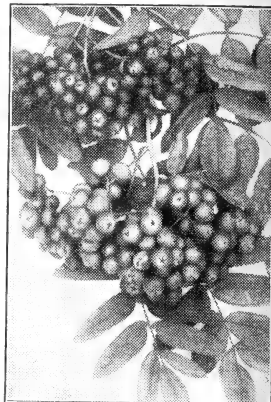

Very hardy tree with attractive deep cut leaves; in May-June it is covered with double, scarlet-red flowers followed by showy red berries. Low growing. Strong, 2-yr., 3-4 ft. trees, \$1.05 each; 2 for \$1.90.

Three on One Birch

An Outstanding and Beautiful Novelty. Imagine three beautiful European Birch trees all growing from one root system! Look at the photograph at the left, which shows one of these 3-on-1 White Birch clumps. They are real beauties in every sense of the word, and we know you will be delighted with them. Heavy rooted, 3-4 ft. 3-on-1 trees, \$1.15 each; 2 for \$2.00. By express.

Bechtel's Double Flowering Crab

Three-on-One Birch

ORNAMENTAL TREES

Silver Bell Tree (*Halesia tetraptera*). Sometimes called the Snowdrop Tree. Bell-shaped flowers are carried in drooping clusters in early spring. An unforgettable picture when every branch is strung with drooping soft pink buds in the spring, still beautiful later when buds expand into drooping pure white snowdrop-like flowers. Height 30 feet when matured. **2-yr., 2-3 ft. trees, 55c each; 3 for \$1.35.**

Cornus Florida (*White Flowering Dogwood*). White flowers, before leaves appear. Grayish green foliage, turning red in fall. Tall grower. **2-yr., 2-3 ft. trees, only 35c each; 3 for \$1.00.**

Cornus Florida Rubra (*Red Flowering Dogwood*). Covered in early spring with masses of large, rose-red blooms. Red berries in fall. Slow growing. **Strong, 2-yr., 2-3 ft. trees, \$1.40 each; 3 for \$3.90.**

Kwanzan Japanese Flowering Cherry (*Sacred Gate*). Flowers are very full and double, deep pink or old rose, varying in tone according to weather conditions. **Fine, 2-yr., 3-4 ft. trees, \$1.10 each; 3 for \$3.00.**

Prunus Cistena (*A new Purple-Leaf Plum*). Shows more red in the leaves and lower growth than common variety. Single pink flowers in May. **Fine, 2-yr., 18-24 inch trees, 40c each; 3 for \$1.00.**

Prunus Triloba (*Double-Flowered Plum*). The Rose Tree of China. This small tree is covered with double pink blooms early in spring, before the leaves appear. Seldom taller than 8 feet. **2-yr., 2-3 ft. trees, 45c each; 3 for \$1.20.**

Prunus Pissardi (*Purple-Leaved Plum*). A very remarkable and beautiful tree, with almost black bark, and striking pinkish purple leaves in the spring that deepen in color as the season advances. Has single white flowers. **2-yr., 18-24 in. trees, 35c each; 3 for 90c.**

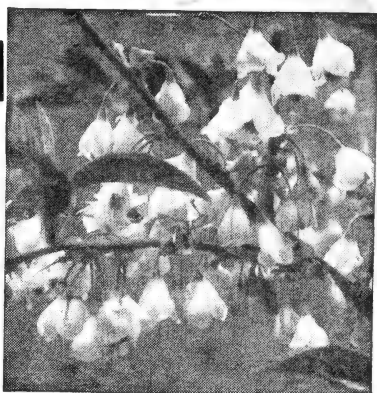

Golden Rain Tree (*Koelreuteria Paniculata*). A rare tree, 25 to 30 feet high. The compound foliage is composed of many small leaflets. The enormous foot-long yellow panicles are produced at the tips of the twigs in July. Late in the summer, numerous bladder-shaped pods adorn its branches for many weeks, followed by gold and crimson foliage in the autumn. Hardy. **Fine, 2-3 ft. trees, 45c each; 3 for \$1.20.**

Tulip Tree An ornamental tree with unusual flowers! A large, stately tree with smooth bark, glossy light green leaves and spreading branches. Flowers are 1½ to 2 inches long, light greenish yellow and are tulip shape; blooms appear in late May and early June. **Fine, 2-yr., 2-3 ft. trees, 15c each; 3 for 40c; 10 for \$1.00.**

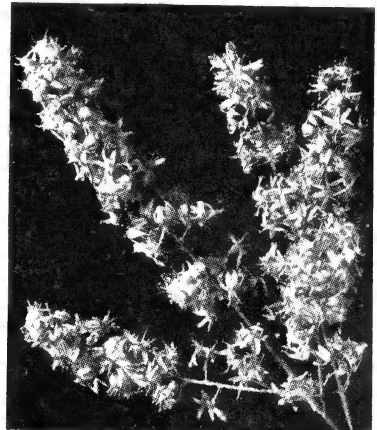

Judas Tree (*Redbud*). Beautiful bright pink blossoms in early spring before leaves appear. Medium size tree with large, irregular head and heart-shaped leaves. **2-yr., 18-24 inch trees, 25c each; 3 for 65c. 3-4 ft. branched trees, \$1.25 each; 3 for \$3.00.**

May Day Tree (*Prunus Padus Commutata*). A beautiful lawn tree which comes from Siberia; is one of the first to show green in the spring. The flowers are large, pure white and very fragrant, conical in form; blooms in April or early May. Ideal for cutting. Flowers are followed by fruit, which is small, and although edible and make good jelly, are soon claimed by the birds. May be trimmed up for a shade tree or left in bush form. Very hardy. **Fine, 15-18 inch stock, 30c each; 3 for 75c.**

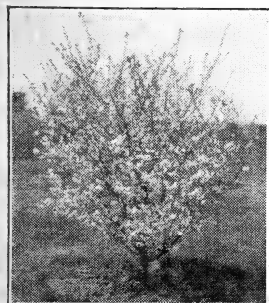

Moss Locust (*Tree form Rose-Acacia*). The same as shrub Rose-Acacia (see page 24) with the exception that this variety is tree form. Very hardy, beautiful ornamental trees. Bloom during June. **2-yr., 3-4 ft. trees, 70c each; 3 for \$1.75. 3-yr., grafted top, 6-7 ft., selected specimens, \$5.00 each.**

ORNAMENTAL TREES

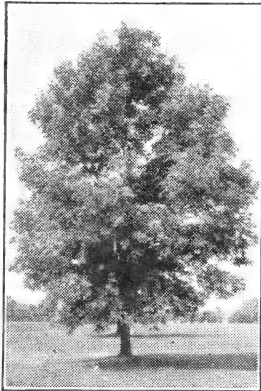

Silver Maple

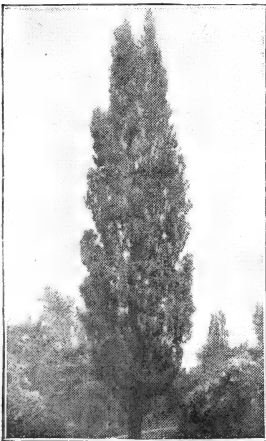

American White Birch

(Canoe Birch.) A large, vigorous upright tree with broad, handsome leaves and brilliant white bark. 3-4 ft. trees, 30c each; 3 for 75c; 10 for \$2.00. 5-6 ft., \$1.25 each; 2 for \$2.00.

SPECIAL!
10 American White Birch, 2-3 ft., \$1.00, net, not prepaid.

White Ash

Lombardy Poplar

Silver Maple (*Acer dasycarpum*.) Very hardy, rapid growing native tree, valuable for producing quick shade. Good sized, rather deeply and irregularly indented leaves, which turn yellow and bronze in the fall. Trees well rooted, well branched, straight trunks; all fine, sturdy specimens. Prices: 2-yr., 3-4 ft. trees, 15c each; 3 for 35c; 10 for \$1.00. 2-yr., 4-5 ft. trees, 25c each; 3 for 65c; 10 for \$1.80. 3-yr., 6-8 ft. trees, 55c each; 3 for \$1.50. 3-yr., 8-10 ft. trees, 90c each; 3 for \$2.50.

Poplar, Lombardy A tall tapering tree, rapid grower, attaining a height of 60 feet in a short time. Leaves dark green, with silvery surface below. Price: 2-yr., 5-6 ft. trees, 35c each; 3 for 75c; 10 for \$2.40. 2-yr., 6-8 ft., 50c each; 3 for \$1.35. 3-yr., 8-10 ft., 75c each; 3 for \$2.10.

Magnolia Tripetala Attains a height of 30 to 40 feet; has immense leaves, usually 12 to 24 inches long, and from 7 to 10 inches wide. Leaves grow in clusters about the large white flowers and rose-colored fruit cones. Fine, 2-yr., 2-3 ft. trees, 65c each; 2 for \$1.20.

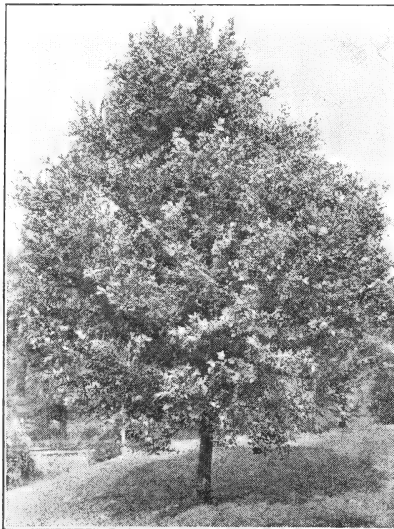

Cut-Leaf Weeping Birch

A tall, slender tree of vigorous growth, with graceful drooping branches, silvery white bark and delicately cut foliage. Strong, 2-yr., 3-4 ft. trees, 95c each; 2 for \$1.75. 2-yr., 6-7 ft. trees, \$1.50 each; 2 for \$2.75.

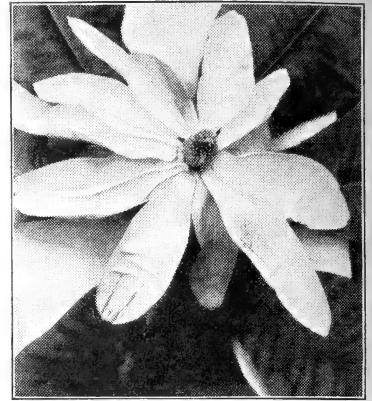

Ginkgo (*Maidenhair Tree*). Known as the living fossil. It is one of the most satisfactory trees for planting under congested conditions as it is able to withstand smoke, gas and adverse growing conditions. A distinguished tree from Japan, 40 to 50 feet, columnar growth when young, spreading with age into an odd sketchy outline. Its thick, leathery leaves are shaped like a fan. Robust and rapid grower. One of the few plants that has survived the ice age of ancient times. Fine, 2-yr., well-rooted, 12-15 in. trees, 30c each; 3 for 75c.

Wisconsin Weeping Willow A graceful tree of large size. Its fresh, bright green tint, and long, wavy branches make it very attractive. This is the most generally planted variety, and makes immense broad-topped specimens. Long, fine leaves on slender branches. Grows rapidly. 2-yr., 3-4 ft. trees, 35c each; 3 for \$1.00.

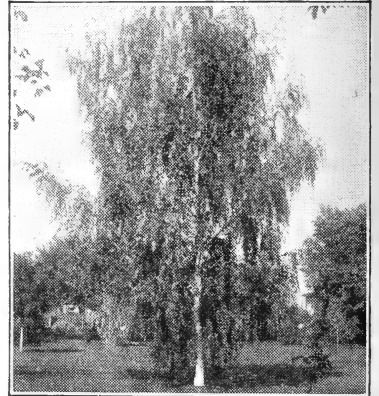

White Ash A handsome, hardy, broad-headed, quick-growing shade tree, sometimes reaching 120 feet in height. Tree has narrow leaflets and heavy, rugged twigs. Extensively used for windbreaks, and one of the best shade trees we know of. Outstanding and beautiful in any yard. 2-yr., 3-4 ft. trees, 25c each; 3 for 70c. 4-5 ft. trees, 35c each; 3 for 90c. 5-6 ft. trees, 45c each; 3 for \$1.20.

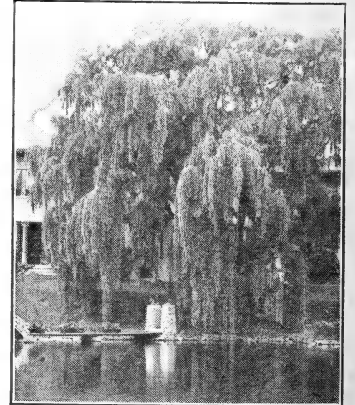

Chinese Elm

Magnolia Tripetala

Cut-Leaved Weeping Birch

Wisconsin Weeping Willow

Chinese Elm (*Ulmus pumila*.) Very rapid grower. Will give ample shade in only 5 or 6 years from planting. Has dense, dark green foliage; is the first shade tree to leaf out in the spring, and the last to shed its leaves in the fall. Resists drought and cold, and succeeds in all parts of the United States. Does well in all soils, except in low, wet grounds. Prices: 2-yr., 3-4 ft. trees, 20c each; 3 for 50c; 10 for \$1.50. 2-yr., 5-6 ft. trees, 50c each; 3 for \$1.35; 10 for \$4.00. 2-yr., 6-8 ft. trees, 75c each; 3 for \$2.10. 3-yr., 8-10 ft. trees, \$1.15 each; 3 for \$3.00.

BARGAIN No. 8

English Walnut Tree

Thin Shell Black Walnut

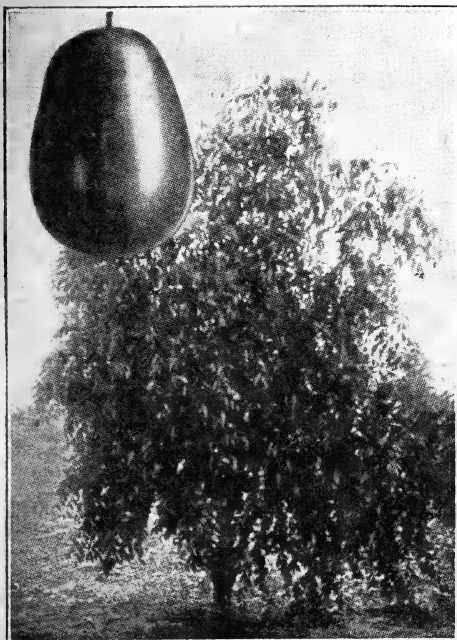

This new Thin-Shelled variety is nothing like the native Black Walnut, except in taste and richness, and produces much larger nuts than the common hard-shelled variety. This walnut is hardy, a fast grower, and often comes into bearing the second or third year after planting. Nuts crack easily—often in halves. Most valuable tree for its fruits, shade and lumber. Black walnut is the best furniture finishing lumber obtainable. Price, fine, 3-4 ft. trees, \$1.85 each; 3 for \$5.00. Bearing-age, 8-9 ft. trees, \$3.00 each; 2 for \$5.75.

BARGAIN No. 9

- 1 Hardy Chinese Date

Chinese Date

~ NUT TREES ~

Butternut Native tree, producing long large nut. Has a sweet, oily, nutritious kernel. 2-yr., 2-3 ft. trees, 18c each; 3 for 45c; 10 for \$1.20.

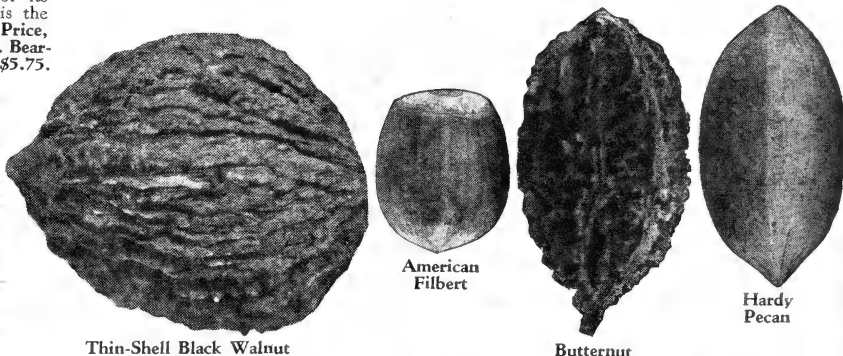

Chinese Chestnut Distinct from other chestnuts; dwarf grower, productive usually when two or three years old. Nuts of immense size, larger than American Chestnut, and equally sweet and good. Fine, 2-3 ft. trees, \$1.00 each; 2 for \$1.80.

American Filbert (Hazel Nut). The family favorite, having attractive bush, yielding abundant crops of tasty round nuts, which are tender and of fine flavor. Bears young. Does not grow large tree. Fine, 2-3 ft. trees, 50c each; 3 for \$1.35.

Black Walnut The common Black Walnut is very productive in nuts which are liked by many. Fine, 2-3 ft. trees, 18c each; 3 for 45c; 10 for \$1.20.

Hardy Pecans Of all the varieties of the luscious and valuable nut family, the Pecan stands at the head of the list. Hardy and strong grower; nuts of good size and well filled. Shell very thin and easily opened. Fine, 1-2 ft. trees, 50c each; 3 for \$1.35.

English Walnut Tree valuable for its fruit and shade. The nuts are thin shelled with full-meated kernels of delicious flavor. Tree is hardy and productive. Fine, 1½-2 ft. trees, \$1.25 each; 3 for \$3.25.

Thin-Shell Black Walnut

American Filbert

Butternut

Hardy Pecan

Hardy Chinese Date

(Jujube)

This variety of Hardy Chinese Date is a fruit from the high interior of China. It is quite hardy, the United States Department of Agriculture bulletins reporting that it has withstood temperatures of 22 degrees below zero without injury. It is adapted to a wide range of territory and all kinds of soil.

It blooms very late in the spring, after all danger of frost is past. The tree is a heavy and constant bearer and commences to bear at an early age, four-year-old trees having produced 150 pounds of fruit. The chocolate-colored fruit is one to two inches long. It is delicious when eaten fresh or cured like dates, and is excellent for preserves, jams and for most tasty and palatable confections. 2 to 3 ft. trees, \$1.15 each; 3 for \$3.00.

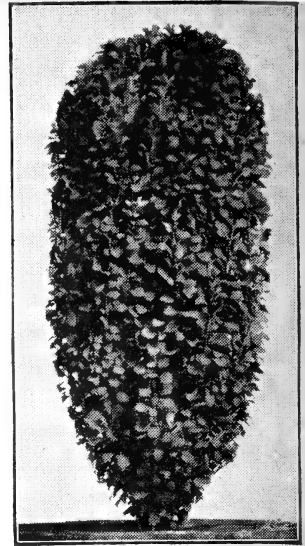

Ackerman's Peat Moss

Peat Moss is decomposed, concentrated leaf-mold and decayed vegetation. Holds seven times its weight in moisture, and is invaluable as a humus-adding material for both the lawn and garden. It is an acid peat which we highly recommend for use in planting Evergreens, Rhododendrons, Azaleas, and Blueberries, or anything which requires an acid soil. We offer same in a two-bushel bag, which weighs 40 to 50 pounds.

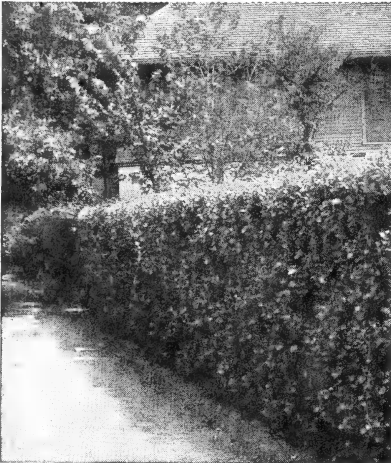

PRICE: 2-Bushel Bag, \$1.00 Net, not subject to cash discount. This material shipped by freight unless otherwise instructed.

HEDGE PLANTS

Truehedge Columnberry Sensational New Hedge Plant. Foliage and growth similar to the Boxwood—needs very little care. This new form of Barberry is upright and pyramidal with very dense growth and heavy foliage evenly distributed from the ground up. It retains its neat, well groomed appearance with very little trimming. The leaves are larger, thicker and of a much deeper, glossier, healthier shade of green than common Japanese Barberry, taking on a rich deep red coloring in the fall. Produces numerous red berries, which hang on the bushes until spring. Entirely hardy anywhere in the United States. Can be grown like Boxwood into symmetrical specimen. Very desirable for compact hedges. Does not require trimming, although single plants of the Columnberry may be sheared to specimen pyramids, ovals, espalier and tree shapes. **Protected under U. S. Plant Patent No. 110. Price: Fine, 12-15 in., 30c each; 5 for \$1.25; 25 for \$5.00; 100 for \$17.00. Net, not subject to any cash discount.**

Truehedge Columnberry

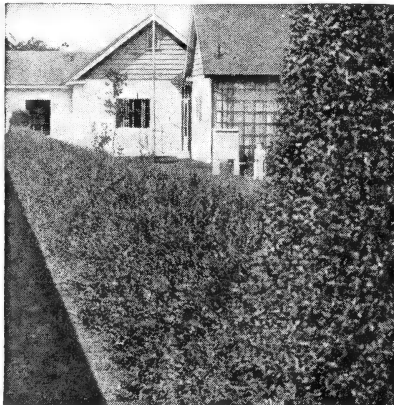

Russian Mulberry Hedge

Red Barberry Similar to Barberry Thunbergi in all respects except color—is a brilliant red. Early spring, assumes a deep, bronzy red color, which it retains until fall, when it changes to vivid orange, scarlet and red shades, far more brilliant than the ordinary Japanese Barberry. This unrivaled coloring is followed by the same scarlet berries common to the type, which remain on the plant throughout the entire winter.

Russian Mulberry Hardy in all states—never winter-kills. Superior to other kinds, as it makes a dense hedge from the ground up. Unlike most other hedging varieties as to growth and shape of leaves; very attractive foliage, making an outstanding and beautiful hedge, altogether different than old common varieties. Cannot be surpassed for tall hedges to hide unsightly views, or can be pruned to any height desired. Be the first in your locality to get started with this outstanding hedge. **NOTE ACTUAL PHOTO.**

Amoor River North Privet One of the best hedge plants because of its extreme hardiness. It is of similar form and habit to the well known California type, but much harder. Of fine, upright growth with lustrous dark green foliage, nearly evergreen. Grows quickly, making a hedge the first year, and succeeds in practically all soils. Especially valuable for hedges and borders in cold exposed locations. When planting, cut back to 4 inches above ground to make hedge bushy at bottom.

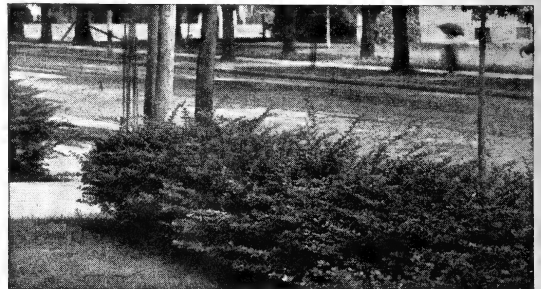

Chinese Elm Hedge Chinese Elm makes one of the finest of hedges. Especially desirable for states of light rainfall and where extreme hardiness is required. The hedge, limbs clear to the ground, is a bright rich green from very early in the spring, as it is much earlier than other hedges and carries its foliage, which colors with frost, way into the fall. Trim same as Privet or other similar hedges.

Chinese Elm Hedge

Japanese Barberry (Berberis Thunbergi). Immune from rust. Dwarf growing, uniformly bushy and rounded in form,

numerous leaves covering thorny twigs. As a filler edging for shrubbery, as foundation screen in front of porches, as a hardy, low hedge, it is unsurpassed. Foliage bright, rich green, turning to a blaze of gold and crimson in autumn. Small creamy white flowers, followed by oval, red berries, which gleam along every branch in late fall, and far into winter.

Japanese Barberry Hedge

CLIMBING VINES

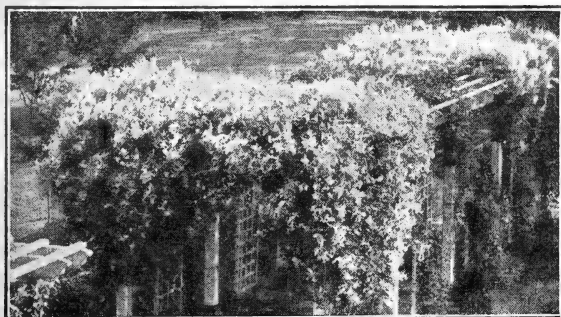

Bittersweet

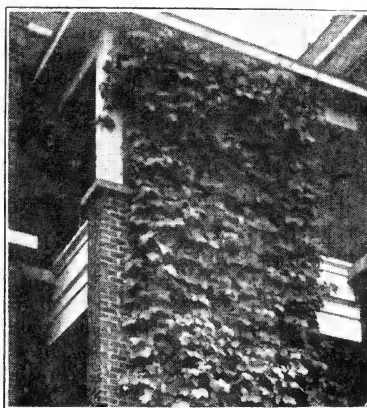

Wisteria

Boston Ivy

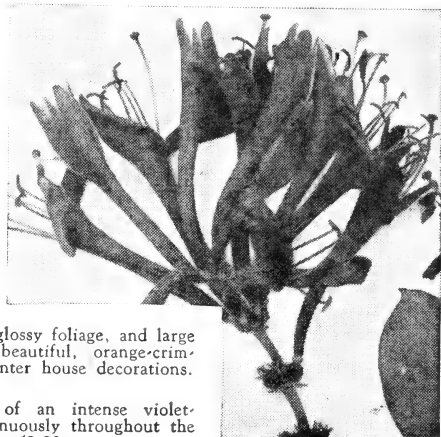

Silver Lace Vine

Kudzu Vine

Honeysuckle, Flaming Beauty

New! The Wonder plant of the Century. Ever-blooming. A Lonicera that will fill that long-felt need of a variety that will produce continuous bloom. Blooms all summer with beautiful red flowers. Very highly scented. Wonderful foliage. We feel sure that you will not regret placing several of these in your order, for this wonderful vine will give you everlasting joy. 2-year, No. 1 vines, 35c each; 3 for 90c.

Honeysuckle, Flaming Beauty

Honeysuckle, Hall's Japan

Strong, vigorous vine, with pure white flowers changing to yellow. Extremely fragrant, and blooms all summer. 2-year, No. 1 vines, 25c each; 3 for 60c.

American Bittersweet Handsome, glossy foliage, and large clusters of beautiful, orange-crimson berries, remaining all winter. Charming for winter house decorations. 2-year, No. 1 vines, 30c each; 3 for 75c.

Clematis Jackmani Immense flowers of an intense violet-purple color continuously throughout the summer. Strong, 2-year vines, only 75c each; 3 for \$2.00.

Clematis Juouiniana, Spingarn Something new in Clematis. Much more rapid grower than other varieties, producing a top of about 12 to 15 feet in one summer. Perfectly hardy anywhere, heavy foliage, many branches, and blooms from top to bottom in August. The flowers are small like lilies-of-the-valley and bunched in large clusters, and a beautiful pale blue in color. This variety was developed by the late J. E. Spingarn, Clematis collector and lecturer. A new Clematis that is easy to grow and one that will cover the end of your porch in one year—something to be proud of. Strong, 2-yr. plants, \$1.50 each; 2 for \$2.75.

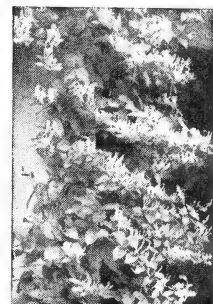

Clematis Mme. Edouard Andre These beautiful large, flowering Clematis will attract attention anywhere—beautiful velvety-red flowers, often 4 to 6 inch blooms. Vigorous blooming, Strong, 2-yr. plants, 75c each; 3 for \$2.00.

Kudzu Vine Hardy. Large foliage and dense shade. Runs 30 to 40 feet in one season. Blooms in August. Rosy purple, pea-shaped flowers, in small racemes. 2-year, No. 1 vines, 25c each; 3 for 60c.

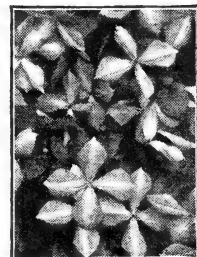

Boston Ivy One of the finest hardy climbers for covering walls and trunks of trees, as it clings firmly to any surface. Deep green in summer, bright red in autumn. 2-year, No. 1 vines, 35c each; 3 for 90c.

Silver Lace Vine Unusually charming. Climbs gracefully anywhere. Grows very rapidly, averaging 25 feet in a season. A well grown specimen is a cloud of lacy, misty white shot with tints of cream and pale rose, of exquisite effect. Blooms late summer and fall. Strong, 2-year vines, 40c each; 3 for \$1.00.

Chinese Purple Wisteria Elegant and very rapid growing. Has long, pendulous clusters of pale blue flowers in May and June, and in autumn. 2-year, No. 1, choice specimens, from blooming wood, 40c each; 3 for \$1.00.

All Hybrid Teas

Will bloom continuously this summer and every year following. Everyone loves Roses. At our low prices you can plant all you want. Remember, our Roses are grade "A", strong, 2-year, field-grown bushes, ready to bloom. It doesn't pay to plant a number two or three grade no matter what the price may be.

E. G. Hill Beautiful long bud of perfect form and full, double, high-centered flower of dazzling scarlet shading to a deeper red as it develops. Strong, vigorous, free flowering habit.

McGredy's Scarlet The finely formed bud is dull red and opens slowly into a magnificent, very large bloom of just "red" or deep pink, which lasts a long time. Color varies as to climate; in fact, one fall, after a wet summer, they were really scarlet. Slight Tea scent. A splendid Rose for cutting, as the perfectly formed flowers come on long stems.

Talisman Its brilliant orange-red buds open to large, fragrant, high-pointed blooms of glowing golden yellow stained with copper-red and orange-rose on inside of petals. As the petals unfold, they become bright apricot-gold, deep rose-pink or old rose, and unlike most Roses, the color becomes brighter as the flowers develop. Plants are vigorous, healthy and hardy growers.

Golden Dawn An ideal yellow garden Rose. The ovoid, lemon-yellow bud is heavily splashed with crimson before opening and develops into a well formed, sweetly scented, large, double, sunflower-yellow that reminds one of the old favorite Marechal Niel.

Mme. Nicholas Aussel

This variety was voted an award of a Gold Medal as "the most beautiful Rose in France." Very long, shapely, tapering, bright coppery red buds, that develop into a large, full double flower of an exquisite opalescent salmon-pink. Free and continuous bloomer.

Group A

Varieties Above

\$1.05 for 3
\$1.80 for 6

Group B

Varieties Below
45c each
\$1.25 for 3
\$2.10 for 6

Director Rubio The Rose with a "personality," different in form and coloring. The color is cochineal-pink, which is retained almost without fading until petals drop. Fully opened, many petaled, mammoth blooms are often from 6 to 7 inches across, borne on erect, rigid stems.

Editor McFarland The perfectly formed flowers are clear, brilliant, unfading pink, and as a cut flower it retains its form and lasts longer than any other Rose we know. A winner of many awards. The growth is vigorous, the foliage healthy, and it blooms all the time from early summer to frost.

Mrs. E. P. Thom Best yellow Rose. Fine, long buds open into perfectly shaped, open flowers of rich lemon-yellow which do not fade; sweetly scented. Very vigorous grower and continuously in bloom.

Sunburst Gorgeous blooms of yellow and orange blend. One of the Pernet introductions. Noted for the length of time it holds its long, pointed buds.

Edel A magnificent, bold, and stately flower of great depth, quality and finish. White with faintest ivory shading towards base. Fine grower.

C. K. Douglas

A very fine English Rose of vigorous, upright growth. Flowers are large, semi-double, brilliant light crimson with scarlet undertone; very fragrant and produced in great numbers throughout the season.

Grenoble Glowing scarlet-crimson. The plant is very vigorous and the blooms come on unusually long stems, making it one of the best garden Roses for cutting. Easily one of the best reds.

Mme. Joseph Perraud The long, slender and pointed nasturtium-orange buds open to sweetly fragrant flowers of a charming nasturtium-buff, straying to a lovely shade of shell-pink at the petal edges. Winner of many medals.

Condesa de Sastago It is the first fully double variety to carry the vivid colors of coppery red and yellow. Very hardy, vigorous, healthy growth. Has rich raspberry perfume. Keeps well when cut for indoor enjoyment. Winner of many medals.

Soeur Therese Long, pointed buds are chrome-yellow, heavily marked with carmine; the open flower is rich daffodil-yellow and holds its color well. Sweetbriar fragrance. Blooms come freely on splendid cutting stems. 20 to 25 petals.

Group C

Souv. de Mme. C. Chambard

The buds are large, long, pointed, coral in color, and slowly unfold to a coral-pink flower developing a satiny peach tint and sheen. Its fragrance is simply delicious, so that it is not only one of the most beautiful Roses but one of the sweetest. Free bloomer. Its long stems and perfect form make it a splendid cut flower. 35 to 40 petals.

Heinrich Wendland

Double flowers of nasturtium-red, deep golden yellow on outer surface—never fades. Highly fragrant. Long stems. Blooms come singly on strong, upright plants with shiny, leathery foliage.

Group D

Varieties Below

55c each

\$1.50 for 3

Temno The largest of all the darkest Roses—not black, but not far from it! Rich, deep, velvety maroon blooms—in the fall almost black. Very large, well-formed flowers. Very fragrant and free blooming.

Mrs. Lovell Swisher Deep salmon buds open to large, salmon-orange, sweetly scented blooms with high centers.

Hinrich Gaede Luminous vermillion, shaded with golden yellow. The flowers are large, double, high-centered, and have a rich fruity fragrance. Free bloomer.

Rouge Mallerin

The pointed buds of brilliant red open to 3½-inch blooms of glowing scarlet, the deep pile on the petals making them look like rich scarlet velvet. Rich old damask perfume.

PRES. HERBERT HOOVER. Multi-colored. The tall, healthy plants produce large flowers of scarlet, yellow, cerise, pink and flame. A perfect Rose for cutting.

DAME EDITH HELEN. (Hybrid Tea.) Largest, most perfectly shaped and most perfumed pink rose. Clear, glowing pink, from the time the bud opens until the petals fall. Blooms abundantly, with long, strong stems. Growth of bush is vigorous and thoroughly hardy. Wins praise and admiration everywhere.

ETOILE DE HOLLANDE. (Hybrid Tea.) Large, velvety crimson flowers produced in great profusion throughout the summer. Deliciously perfumed. Vigorous, upright grower. Unquestionably a popular and excellent red rose.

MISS ROWENA THOM. (Hybrid Tea.) Large buds open to full blooms of perfect form, often measuring over 5 inches in diameter. The color is deep rose-pink with a yellow base to the petals which lights up the whole flower. Vigorous grower, splendid foliage, and blooms freely. Delicious fragrance.

MRS. PIERRE S. DU PONT. (Hybrid Tea.) This Gold Medal winner has a medium-sized long-pointed bud of a reddish gold, opening to a semi-double, cupped, very lasting, fragrant flower of a deep golden yellow. The plant is strong and vigorous.

JOANNA HILL. (Hybrid Tea.) Extremely large, very long-pointed; flowers large, semi-double, full, unusually lasting, moderately fragrant, darker yellow than Sunburst, borne singly on long, strong stem. Beautiful foliage; few thorns. Vigorous grower; profuse bloomer.

CALEDONIA. (Hybrid Tea.) Exquisite long buds of ivory-white, changing to purest white as the flowers open into large double blooms of soft velvety texture. The best white. Continuous free bloomer.

RED RADIANCE. (Hybrid Tea.) Large, globular flowers of an even, clear red. Constantly in bloom. Very popular.

PINK RADIANCE. (Hybrid Tea.) Extra hardy, vigorous and prolific. Blending of carmine-rose with shades of opal and copper.

GRUSS AN TEPLITZ. (Hybrid Tea.) Bright scarlet, shading to velvety crimson; fragrant; free flowering.

PAUL NEYRON. (Hybrid Perpetual.) Largest rose in cultivation. Color bright cerise-red, very fragrant. June until late October. Flowers full and double.

SOUV. de CLAUDIUS PERNET. (Pernetiana.) Most satisfactory yellow rose. Strong, sunflower-yellow, even deeper toned at center. Large flowers; buds long and pointed. Vigorous growing bush, with brilliant foliage.

AMI QUINARD. A variety which is here to stay, beats all others; best near-black Rose in our estimation. Deep velvety crimson, fragrant and very lasting. A vigorous shrubby plant, with almost single flowers of deep blackish scarlet. We know a trial order of Ami Quinard is sure to please.

 1 Cl. Gruss an Teplitz
 1 Cl. Pres. H. Hoover
\$1.10 Net, Not Prepaid.

Paul's Scarlet The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters, on much branched canes. Blooms very long, holding flowers after many June bloomers have dropped their petals. Strong 2-year, field-grown bushes, 35c each; 3 for 90c.

American Beauty This climbing variety has delightful well-formed blooms of rosy carmine. Splendid foliage. Very fragrant. Strong, 2-year, field-grown plants, 35c each; 3 for 90c.

Mme. Gregoire Staechelin (Spanish Beauty). Charming new climber. Long, pointed buds flashing carmine opening into flowers of delicate pink. Long stems for cutting. Foliage very resistant to disease. Strong, 2-year, field-grown bushes, only 35c each; 3 for 90c.

Blaze (U. S. Plant Patent No. 10.) This hardy scarlet climber is a cross between Paul's Scarlet and Gruss an Teplitz. Blaze is seldom out of bloom. In the middle of August the bushes are covered with vivid scarlet flowers. Strong, 2-year, field-grown bushes, \$1.00 each; 6 for \$5.00. Net, not subject to discount.

Cl. Gruss an Teplitz Just as desirable as the bush type. See page 18. Does not run wild, but grows strong and upright. Strong, 2-year, field-grown bushes, 40c each; 3 for \$1.05.

Cl. Pres. Herbert Hoover Multi-colored. These healthy bushes produce large flowers of scarlet, yellow, cerise, pink and flame. 2-year, field-grown bushes, 40c each; 3 for \$1.05.

Cl. Talisman No doubt the bush Talisman has attained the greatest popularity of any Hybrid Tea, and now this amazingly beautiful rose comes as a climber. Beautiful two-toned shades of yellow and red. Strong, 2-yr., field-grown bushes, only 40c each; 3 for \$1.05.

Everblooming Baby Polyanthas

These are especially fine for solid beds and for borders. Also ideal for cemetery planting because they are so easy to grow and bloom so freely. Are constantly in bloom from early summer until freezing. Very hardy, growing everywhere and requiring very little care.

- GLORIA MUNDI.** Huge clusters of brilliant orange-scarlet. Grows 18 inches.
EDITH CAVELL. Double flowers of the deepest blood-red. Grows 24 inches.
GEO. ELGER. Graceful sprays of beautiful yellow. Grows 20 inches.
KATHARINE ZEIMET. White, sweetly scented. 24 inches.
TRIUMPH D'ORLEANS. One of the finest pinks. Grows 20 inches.

Imagine getting fine, heavy, two-year, field-grown Hybrid Tea Roses at this price! These are the two-year-old budded stock you would get when ordering by variety—you order by color only. This plan saves money for you. You simply choose by color instead of by variety. A fine assortment at a bargain. We often have a surplus of certain varieties; therefore, this plan to avoid waste. A big saving if you are not interested in named varieties.

Order by color only. We offer: Red, Yellow, Pink, Two-Toned, and White.

PRICE: Each, 35c; 2 for 60c; 4 for \$1.00; 10 for \$2.40. Net, not prepaid.

Woodward Arbor-Vitae

Evergreens

Big Size and Baby Size

Our Big Size Evergreens are large enough for immediate effect. Their roots are carefully balled in damp peat, to cut down on weight, and then wrapped in burlap. This insures safe transplanting.

Each will weigh from 10 to 15 pounds, and can be shipped by parcel post or express.

Mugho Pine

Genuine true dwarf type. Growth is dense and plants are thickly covered with heavy, dark green needles. Never grows over 4 to 5 feet tall, but spreads out 6 or more feet in diameter when full grown. Balled in peat and burlapped, 12-15 in. trees, XXX, \$1.85 each; 2 for \$3.50. Baby size, 6-8 in., 35c each; 2 for 60c.

Irish Juniper

Erect and slender, formal and columnar in form. Very compact, deep green foliage. When matured, this tree reaches a height of 6 to 7 feet, but it is never over 1 1/2 feet in diameter. Popular for cemetery planting as well as for landscaping home grounds. Balled in peat and burlapped, 15-18 in. trees, XX, 85c each; 2 for \$1.50. 2-3 ft. trees, XXX, \$1.75 each; 2 for \$3.00. Baby size, 8 to 10 in., 35c each; 2 for 60c.

Colorado Blue Spruce

Most popular and showy of all Spruces. Glistening silver foliage. Very hardy, good grower, withstands severe winters and excessive moisture, and is very easily transplanted. When dormant the tree acquires a somewhat greenish cast, but as soon as the new growth makes its appearance, clothing it in a deeper cast of blue, the full beauty of this glorious tree can be appreciated to the utmost. Balled in peat and burlapped, 2-3 ft., XXX, selected specimens only, \$3.25 each; 2 for \$6.00. Baby size, 6-8 in., 30c each; 2 for 50c.

Pyramidal Arbor-Vitae

Densely columnar type, compact and erect. Foliage is deep green. Height matured, 12 to 15 feet. Most popular pyramidal tree on the market. Balled in peat and burlapped, 24-30 in. trees, XXX, \$1.70 each; 2 for \$3.20. Baby size, 8 to 10 in., 35c each; 2 for 60c.

Woodward Arbor-Vitae

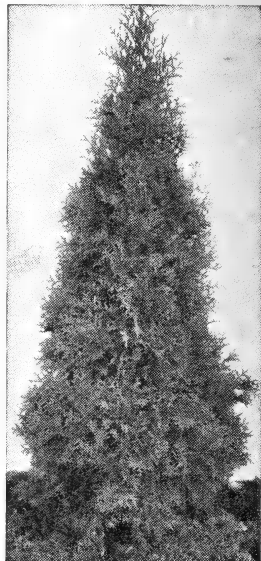

This splendid globe Arbor-Vitae is rapidly becoming one of the most popular varieties. This is due to the fact that it maintains itself well under all conditions, and keeps the globe habit without trimming. Seldom attains a height of more than 3 feet. Foliage is dense, and of deep sea-green shade. Balled in peat and burlapped, 10 to 12 in., XX, \$1.00 each; 3 for \$2.75. Baby size, 8-10 in., 35c each; 2 for 60c.

Pfitzer's Juniper

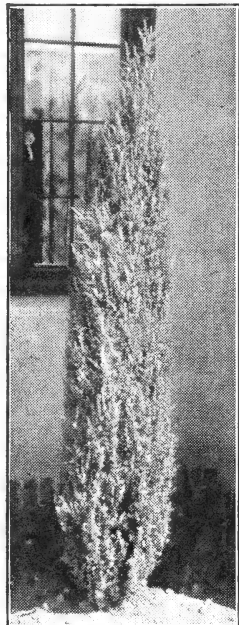

Extremely popular. Thrives anywhere. One of the few Evergreens that will withstand considerable shade. Color is deep green, with a grayish cast. Should be in every Evergreen planting. Balled in peat and burlapped, 15 to 18 in., XX, \$1.75 each; 2 for \$3.00. 18 to 24 in., XXX, \$2.35 each; 2 for \$4.50. Baby size, 8 to 10 in., 40c each; 2 for 70c.

Juniperus Virginiana

(Red Cedar). Famous native evergreen, beautiful in almost any setting. Fine, dense foliage; thickly columnar, varying in habit and color, mostly formal and bluntly conical. Balled in peat and burlapped, 3-4 ft. trees, XXX, \$1.75 each; 2 for \$3.00. No Baby Size in this variety.

Pfitzer Juniper

Juniperus Virginiana

Mugho Pine

The NEWER Evergreens

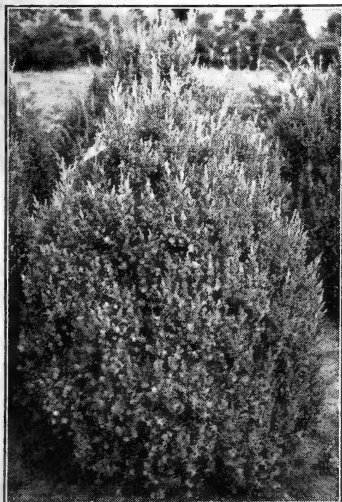

Biota Excelsa

Biota Excelsa This variety is a Chinese type similar to Baker or Biota Bonita. Much hardier than these two varieties—is grown successfully in the northern states, where the two former varieties are sometimes damaged by cold. A fast, compact grower, dark green in color. A dwarf type attaining a height of 4 to 5 feet. Balled in peat and burlapped, 24 to 30 in. trees, XXX, only \$2.50 each; 2 for \$4.50. Baby size, 8 to 10 in., 40c each; 2 for 70c.

Spiny Greek Juniper

(*Juniperus excelsa stricta*). This beautiful variety forms a tall, dense conical head tapering gradually from the ground to a sharp terminal point; its growth is rather broad from the bottom. Color is a fine glaucous blue. Balled in peat and burlapped, 18 to 24 in. trees, XXX, \$2.00 each; 2 for \$3.75. Baby size, 8 to 10 in., 40c each; 2 for 70c.

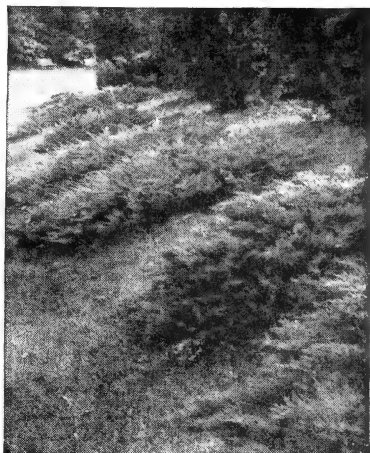

Spiny Greek Juniper

Prostrate Juniper

A SPREADING EVERGREEN
For Banks, Border or Rockery

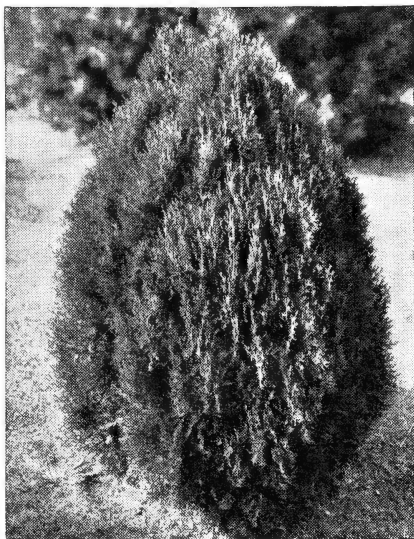

This beautiful evergreen is ideal for rockery use and those steep banks where nothing else will grow. Excellent for the border, along walks, etc. A prostrate creeping type very valuable for planting in areas where height is a controlling factor—always remain low in height and may be pruned to fit any space. 12-15 in., XX, 75c each; 2 for \$1.35. 15-18 in., XX, \$1.50 each; 2 for \$2.75. Baby size, 8-10 in., 40c each; 2 for 70c.

Prostrate Juniper

Chinese Juniper (*Juniperus chinensis*)

A native Juniper of Asia. The needles are sharp and prickly, light green with a slightly bluish cast. It averages 15-20 feet, and varies in habit from narrow and columnar to broad and cone-like specimens. Recommended for all sections of the country and will thrive in almost any soil. Fine, 12-15 inch trees, 50c each; 3 for \$1.25. No baby size in this variety.

Biota Aurea Nana

Golden Pfitzer Juniper

(*Juniperus chinensis pfitzeriana aurea*). We now offer this interesting tree with full assurance that it is in every way similar to and equal to the well-known green form which we offer on page 20, except for color. The foliage comes out a clear canary-yellow, with many of the stems also yellow, losing some of its bright color during the summer and turning to golden again in the fall. Balled in peat and burlapped, 12-15 in., XX, \$1.00 each; 2 for \$1.85. No baby size in this variety.

Biota Aurea Nana

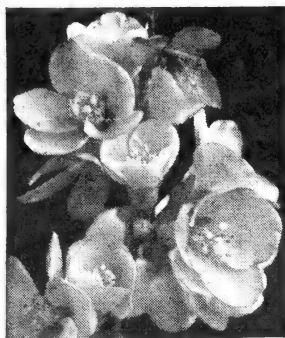

A very compact, slow-growing dwarf type; valuable for foreground. The flattened leaf-clusters face outward edgewise, presenting a beautiful surface of vertical fluted lines. Color is a fresh yellow-green. Balled in peat and burlapped, 18 to 24 in., XX, \$2.00 each; 2 for \$3.75. 24 to 30 in., XXX, \$2.50 each; 2 for \$4.50. Baby size, 8 to 10 in., 40c each; 2 for 70c.

Juniperus Virginiana Burki

Blue foliage, similar to the Virginiana Glauca except finer foliage, and more compact, and the tree is somewhat deeper blue in color. Upright and pyramidal in form. Maximum height, 15 feet. Balled in peat and burlapped, 3-ft. trees, \$3.00 each; 2 for \$5.50. No baby size in this variety.

Juniperus Virginiana Burki

Red Japan Quince

Golden Spirea

Golden Spirea

This is a very vigorous Spirea. Striking white blooms. The leaves of this variety are a golden yellow. After the flowering season is over, the flowers are followed with orange colored pea-pods.

Spirea Callosa Rosea

Field Grown Shrubs

ALL STRONG 2 TO 3 YEAR OLD WELL ROOTED

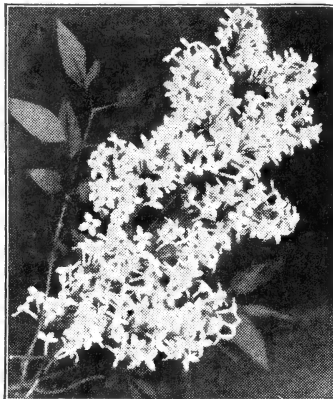

Any Shrub on This Page—

Red Japan Quince (Burning Bush). Very early in the spring, this fine, attractive shrub is completely covered with dazzling scarlet flowers, followed by small, fragrant, quince-shaped fruits. Foliage is dark, glossy green. Very desirable for single specimens; also hedges. Grows 5 feet tall.

30°

each

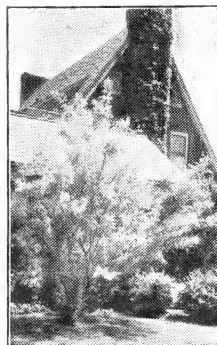

3 for 80c

Persian Lilac

Lilac, Persian Purple

A decided improvement over the common Lilac. A shrub with slender, arching branches, attaining a height of 5 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common, and does not sprout so from the roots. We consider the Persian much preferable.

Tamarix Africana

Tamarix Africana

Tall shrub, 8 to 10 feet high, with fine feathery foliage and small, bright pink flowers, in slender racemes in April and May. Splendid for planting in damp or other places.

Spirea Callosa Rosea

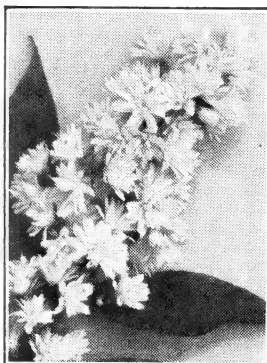

A dwarf variety, growing 24 to 30 inches high, which produces large flat clusters of reddish pink flowers nearly all summer. Very handsome foliage. If flowers are removed as they fade, it will cause the plant to keep up a continuous bloom throughout the entire summer and early fall.

Spirea Douglasi Another handsome, new, pink Spirea that you will want to include in your plantings. Upright in growth, with reddish brown branches and narrow, oblong green foliage. Bears spikes of beautiful deep rose colored flowers in July. 6 to 7 feet at maturity.

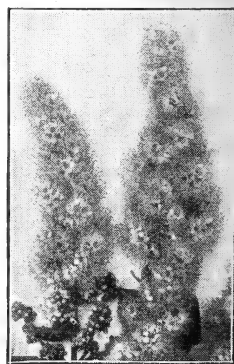

Spirea Anthony Waterer A dwarf variety, growing 15 to 20 inches high, covered with large heads of crimson flowers. Very handsome foliage, often variegated with creamy white or yellow. If flowers are removed as they fade, it will cause the plant to keep up a continuous bloom until freezing weather occurs.

Deutzia Crenata

Here is a Deutzia that is different, and one which should be included in every planting. Beautiful, double pink flowers thickly stud the graceful, upright branches in May. Mature to 3 to 5 feet.

— Any Shrub on This Page

Weigela Floribunda

A beautiful, comparatively new shrub, with large, showy red flowers appearing in profuse clusters and almost hiding the glossy green leaves. Commences blooming early in spring, and continues all summer. This attractive shrub should be in every border planting.

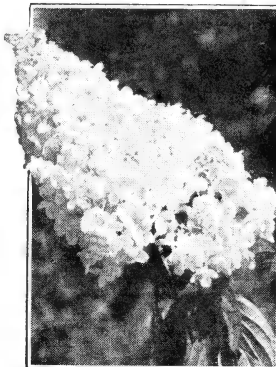

Weigela Floribunda

Weigela, Variegated

Sprays of rosy pink flowers like Floribunda except they

are deep pink. Leaves are beautifully variegated green and white. Grows only 2 to 3 feet high. Very beautiful.

Hydrangea P. G.

Variegated Weigela

Snowball

The well known favorite, prized by every gardener. It really is one of the prettiest grown. It has immense globular clusters of flowers in May and June; grows 9 to 11 feet high. Valuable for specimen plants and also for grouping and massing.

Tamarix Hispida

Graceful, feathery, silvery green foliage. A profusion of pink flowers during August and September—bloom panicles 9 to 12 inches long. Fine for bouquets. 6 to 8 feet at maturity.

Snowball

High Bush Cranberry (Viburnum opulus)

Magnificent shrub, of upright spreading form, with smooth, light gray branches and broad, oval, 3-lobed, bright green leaves. Produces small, white flowers which are borne in broad, flat clusters surrounded by a ring of large, sterile flowers. These are followed by very showy scarlet berries, which cling to the bush all winter. Grows 8 to 10 feet tall.

Hydrangea P. G.

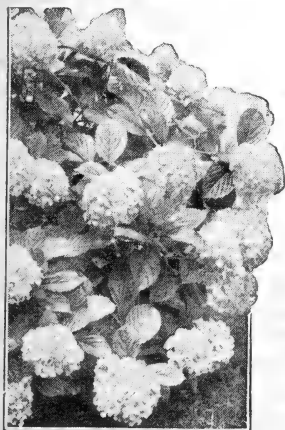

Use this variety for showy bloom and elegant effect. This lovely, showy shrub produces in abundance during August and September, clusters of white flowers which gradually change to pink. Valuable for winter decorations if flowers are allowed to dry on bush. Useful for foundation planting or for massing in borders. Hardy, easy to grow and blooms the first season planted.

High Bush Cranberry

Hydrangea A.G. (Hills of Snow).

Large, flat clusters of white bloms from June to September. The most hardy of the Hydrangeas, and especially useful for shady places. Excellent for solid low borders or in foundation planting. Very popular shrub.

Hydrangea A. G.

Althea—Rose of Sharon

Spiraea Van Houttei

Rose-Acacia

Calycanthus

Field Grown Shrubs

ALL STRONG 2 TO 3 YEAR OLD WELL ROOTED

Althea (Rose of Sharon). Beautiful treelike shrub, blooming late in August and September with a profusion of large and brightly colored flowers. Grows 10 to 12 feet high. Attractive as a specimen or for hedges. Your choice of purple, red or pink. All double flowering.

SPECIAL. Mixed colors Althea, 2-year, strong bushes, 15c each; 6 for 85c; 12 for \$1.65; or \$12.00 for 100. Remember, if certain colors are wanted, they must be bought at the 25c price.

Siberian Pea Shrub Tall shrub, 10 to 12 feet high, with bright green, compound leaves and many small clusters of yellow flowers in May and June. Useful for group or background planting. Hardest and best hedge shrub for the Northwest.

Russian Olive Rugged, treelike shrub, growing 10 to 12 feet high. Foliage is a beautiful, silvery gray, contrasting sharply with other shrubs. Flowers are deep golden and very fragrant, followed by ornamental yellowish brown fruits with silver scales. Highly recommended for tall hedges to hide undesirable views.

Deutzia, Pride of Rochester Large, white flowers tinged with rose. Profuse bloomer. Very hardy. Grows 6 to 8 feet tall, useful for specimens or background.

Purple Lilac It is hard to outclass this old-fashioned purple Lilac. Early prolific bloomer, very fragrant. Very fast grower.

Forsythia Earliest blooming. Lights up the garden with masses of yellow flowers, often before the snow is gone. Tall grower.

Mock Orange (Philadelphus Coronarius). Tall, hardy and vigorous. Blooms in May, in graceful sprays of large, white, fragrant flowers. Grows 8 to 10 ft. tall.

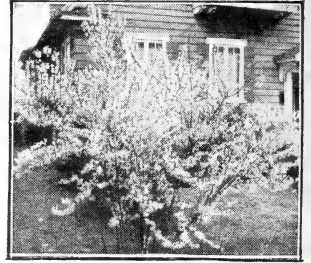

Weigela Rosea Beautiful pink, trumpet-shaped flowers May to June. Grows 5 to 6 feet tall. A good shrub; good flowers, good foliage, easy to grow.

Rose-Acacia (Moss Locust). Elegant shrub, with light green pinnate leaves, and long, graceful clusters of pea-shaped, rose colored flowers in June and often later. An attractive addition to any planting. 4 to 5 feet at maturity.

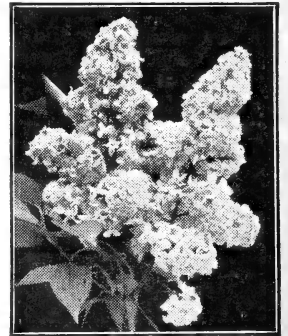

Spiraea Van Houttei The flowers are pure white, and borne in dense clusters along the whole length of the branches. Excellent as a hedge plant or for grouping. Well branched, 2-yr., 12-18 in. bushes, 8c each; 6 for 40c; 12 for 75c; 50 for \$2.40. 2-yr., 18-24 in. bushes, 12c each; 6 for 65c; 12 for \$1.25; 50 for \$3.85. Heavy, 2-3 ft. bushes, 18c each; 6 for 95c; 12 for \$1.80; 50 for \$6.00.

Calycanthus The Sweet-Scented Shrub or Strawberry Shrub; also called Chocolate Shrub and Carolina Allspice. Flowers very double, a brownish purple in color, and deliciously fragrant. Blooms nearly all summer, and is one of the most desirable shrubs; even the roots are very fragrant. Attains a height of 8 to 10 feet.

RECIPE FOR MORE BIRDS

Insect-eating birds flock to farms where a side dish of brilliant shrub and tree berries has been planted.

The Department of Agriculture estimates that insects do over a billion dollars' damage a year to our crops, while the value of birds in combating these insects is over 300 million dollars. Besides their value in destroying insects, many species help in keeping down weeds. Offer the birds board and lodging by planting berry producing shrubs, and you will have a host of willing helpers, working tirelessly for you throughout the whole year.

Red Chokeberry Pretty white flowers in April and May, with bright red berries and foliage in autumn. Grows to 6 feet at maturity. Attracts dozens of birds.

Redtwig Dogwood One of the best native shrubs; free flowering; very handsome when in bloom, and with its white berries on red stems in the fall. Grows compactly, 6 to 10 feet in height. 93 kinds of birds eat the fruit of this Dogwood.

American Beautyberry A native, large-leaved shrub, which blooms during August with small axillary clusters of pink flowers; these are followed by conspicuous violet-colored berries. If top should freeze, young shoots will come up and flower and fruit next season. Berries delight 36 varieties of birds.

White Snowberry A desirable shrub with small, white, wax-like berries, which hang on the plant through most of the winter. Is very showy and succeeds everywhere. Does well in shade. Grows 3 to 4 feet tall. Untold numbers of birds enjoy the berries of this shrub.

Honeysuckle, Tartarian Pink

Bright pink flowers, followed by red berries in the fall. Bushy, upright. Grows 8 to 10 feet high. The berries of this shrub are known to be eaten by 118 kinds of birds.

Gray Dogwood

Unusually compact; showing a profusion of good sized white flowers in June. Berries white, on noticeably red stems. Bark and under side of leaves gray. Berries eaten by 93 varieties of birds.

Red Snowberry

Often called Coralberry or Indian Currant. Similar to White Snowberry but with red berries. 53 species of birds feed on these berries.

Hansen's Bush Cherry

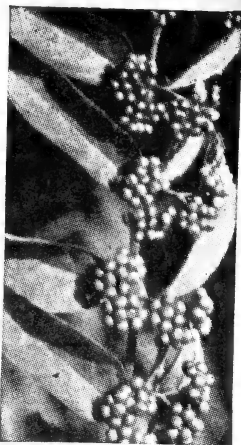

An ornamental shrub producing delicious fruit! Snow-white flowers in early spring, followed by fruit as large as any sweet Cherry, but plum-shaped; good flavor — delicious to eat from the bush, fine for sauce, jams and jellies. Very hardy. Grows 4 to 5 feet tall. Enjoyed by 118 kinds of birds.

Cotoneaster Divaricata

(Spreading Cotoneaster). A graceful, medium sized shrub of graceful spreading habit. Small inconspicuous pink flowers in early summer, followed by bright red egg-shaped berries. Lustrous broadly oval green leaves, turning crimson; few shrubs can equal its glorious scarlet autumn tints. Grows to a height of 6 feet. Attracts over 60 kinds of birds.

Hansen Bush Cherry

American Beautyberry

Red Chokeberry

Cotoneaster Divaricata

White Snowberry

BIG GIFT PLANTINGS FOR EARLY CASH ORDERS. SEE PAGE 6

Unusual and CHARMING

Witch-Hazel (*Hamamelis vernalis*). Something new! Flowers in the winter. In January, February and March, great masses of orange and yellow bloom. Rarely exceeds 6 feet in height. Hardy, sweetly fragrant. An excellent new shrub for border planting or individual specimens. Would be an outstanding novelty in your town. **Fine 18-24 in. bushes, 35c each; 3 for 90c.**

Hypericum Aureum (Golden St. Johnswort). A showy shrub of stiff, dense habit; foliage bluish; flowers, golden yellow, from August to October. Prefer moist soil. Attains a height of about 3 feet at maturity. **18-24 in. shrubs, 35c each; 3 for 90c.**

Smoke Tree (Purple Fringe; *Rhus Cotinus*). Unique, spreading, treelike shrub with large leaves. Overhung in midsummer by cloudlike masses of mistlike flowers having the appearance of smoke. Foliage changes to a brilliant red and yellow in fall. Good as a single specimen on the lawn, or to mass with tall shrubs. **Fine, 15-18 in. bushes, 45c each; 2 for 75c.**

Korean Spirea (*Trichocarpa*). A handsome new shrub acclaimed the best of all Spireas. Grows 4 to 6 feet tall, and forms a big dome-shaped bush covered in spring with large, rounded clusters of snowy flowers marked with darker eyes. Very hardy. More robust and blooms two weeks later than Spirea Van Houttei, and is far more desirable. **Strong, 2-yr., 18-24 in. shrubs, 35c each; 3 for 90c.**

Philadelphus Virginalis Wonderful new Mock Orange. The most beautiful white-flowering shrub that has been introduced for many years. Has very large, semi-double blooms, pure white, sweetly scented, appearing in clusters of six or seven. Closely resembles a bride's bouquet of orange blossoms; ranks among the best for cutting. Vigorous, tall grower, used with striking effect as a hedge; also makes fine individual specimens. 8 ft. at maturity. **Fine, 2-yr., 18-24 in. bushes, 45c each; 3 for \$1.20.**

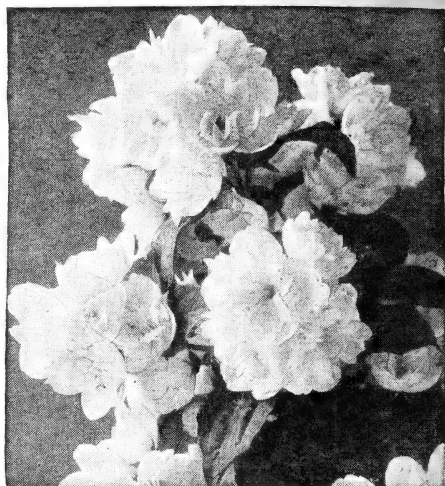

Chaste Tree (*Vitex macrophylla*). Lovely lavender-blue flowers. A color rare in hardy shrubs. Blooms from July till frost. Succeeds anywhere; grows 6 feet tall. **Strong, 2-yr., 2-3 ft. bushes, 35c each; 3 for 90c.**

Tree Form Hydrangea P. G.

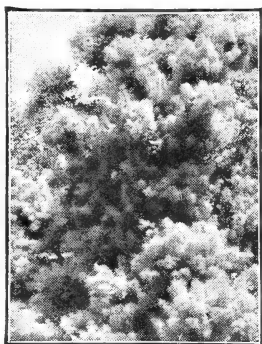

Beautiful, well developed trees of the true P.G. type that are ready to jump right in and grow. Good roots and plenty of branches. We don't need to tell you where to plant them—they're beautiful anywhere. Very large clusters of white flowers, changing to pink. **A bargain at the price we ask. 2-yr., 3-4 ft., \$1.00 each; 2 for \$1.90.**

Pink Flowering Japan Quince

This is indeed the Aristocrat of the Japan Quince family—no orange or red coloring in the flower, but a delightful appleblossom-pink. Its manner and habit of growth are the same as the common Japanese Quince. The most outstanding shrub introduction in recent years. **Strong, 18-24 in. shrubs, 50c each; 3 for \$1.35.**

REAL Aristocrats

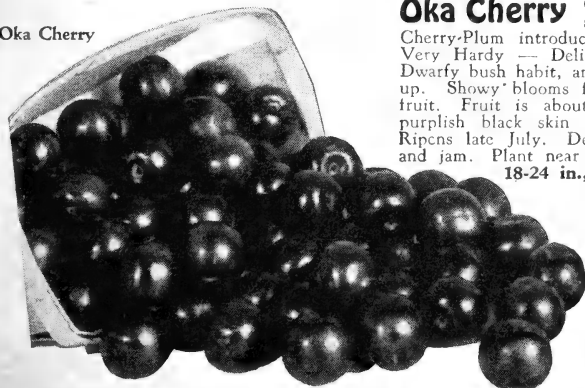

Oak-Leaf
Hydrangea

Golden Peacock Shrub

Oka Cherry

Abelia Grandiflora

(Glossy Arbutus).
Most beautiful popular
and satisfactory
broadleaf evergreen.
Few shrubs are of

greater value than Abelia for
foundation planting, specimens or
grouped in corners and curves of
walk or drive. The shiny, practically
evergreen leaves look as
though they had been freshly
waxed. Dainty, bell-shaped, white
and pink flowers from early spring
until frost. Attains a height of
about 5 feet at maturity. Strong,
2-yr., 18-24 in. bushes, 50c each;
3 for \$1.35.

Golden Peacock Shrub

A rare shrub which is
classed as an evergreen
shrub. The entire shrub is covered
with a profusion of lemon-yellow
pea-shaped, sweetly scented flowers
in May. Has tiny leaves that shed
during the winter, but we consider
it an evergreen because the branches
remain the same greenish color the
year around. Is a medium growing shrub.
2-yr., 18-24 in. bushes, 35c each; 3 for 90c.

Oak-Leaf Hydrangea

(Hydrangea quercifolia). Handsome 3-lobed
leaves measuring 4 inches across, color to
bright purplish red in autumn and remain
until winter. Pyramidal white flower panicles
measure 8 to 12 inches long. Blooms July.
Grows 4 to 5 feet. 2-yr., 18-24 in. bushes,
40c each; 3 for \$1.10.

Syringa Villosa

(The Late-Bloom-
ing Lilac).

A
very late Lilac that comes into bloom when all
other varieties have stopped blossoming. Lilac
lovers will be more than pleased with this
variety as it extends the blooming season about
two weeks. Grows 10 to 12 feet in height;
round shrub, dense leaves; beautiful clusters of
flowers, which are white with shades of pink.
Excellent shrub for background planting. Fine,
9-12 in. plants, 30c each; 3 for 75c.

Flowering Almond, Pink

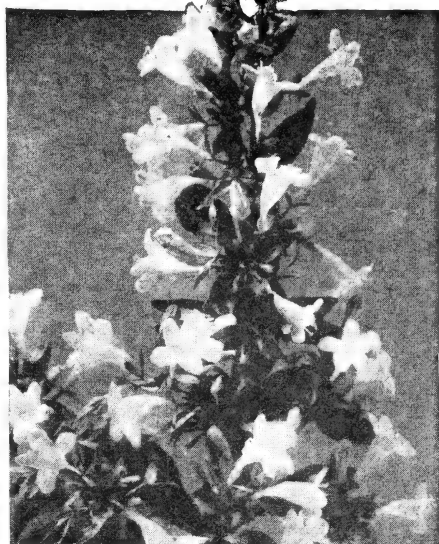

Early spring-flowering shrub, usually in full
bloom before leaves appear. Growth dwarf and
bushy, compact, with slender branches. Fine
plants to use in grouping or for lawn. Flowers
are very showy, and produced in great abundance.
2-yr., 18-24 in. bushes, 35c each;
3 for 90c.

Triple-Red Honeysuckle

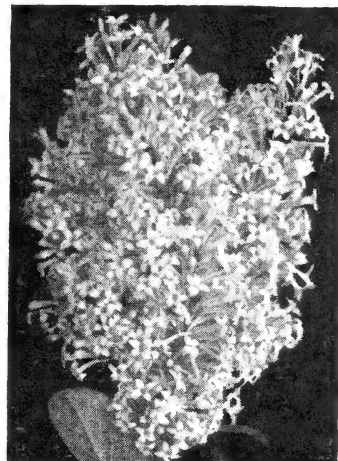

(Lonicera Maximowiczii). Fiery red blossoms,
ruby-red fruits and the foliage is red in the
early spring. This is a new Bush Honeysuckle
reaching a height of 6 to 7 feet; very desirable,
well rounded in shape and attractive all through
the summer. 2-yr., 18-24 in. bushes, 45c each;
3 for \$1.20.

Oka Cherry

One of Prof. N. E. Han-
sen's newest and best
Cherry-Plum introductions. Early Bearing —
Very Hardy — Delicious Flavor — Prolific.
Dwarf bush habit, and bears from the ground
up. Showy blooms followed by full crop of
fruit. Fruit is about one inch in diameter,
purplish black skin and flesh. Very sweet.
Ripens late July. Delicious to eat, for jelly
and jam. Plant near your plum trees. 2-yr.,
18-24 in., 35c each; 3 for 90c.

ACID LOVING SHRUBS

Rhododendron Catawbiense

Azalea

Daphne Cneorum

BROADLEAF EVERGREENS and ACID LOVING SHRUBS, such as Azalea, Daphne, Rhododendrons and Holly, grow best in an acid soil. This condition can be induced by application of aluminum sulphate, one-half to one pound, or sulphate of ammonia, one to three pounds, sprinkled evenly over a square yard of surface and spaded in.

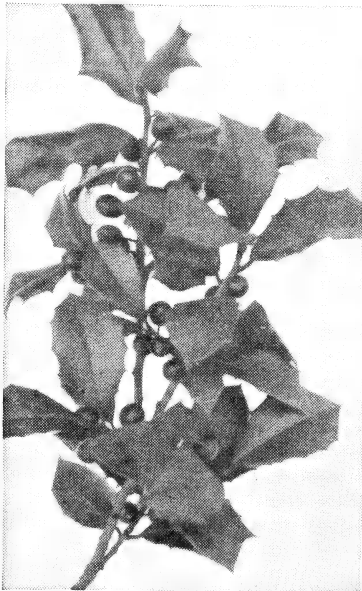

Daphne Cneorum (Garland Flower). Very dwarf shrub, with spreading branches covered with blue-green leaves. Almost evergreen. Each branch and stem is tipped with dense clusters of rose-pink, deliciously fragrant flowers, in April and May, and at intervals during the summer. Hardy but should be given a sunny location in northern states. **Strong, 8-10 in. bushes, balled in peat and burlapped, at only 85c each; 3 for \$1.50.**

Azalea Mollis Strikingly beautiful. A flaming mass of orange, yellow or red bloom during May. The large, 2½ inch flowers appear in bunches at the ends of the shoots. Hardy. Grows about 2 feet high, and does well in both sunny and partially shaded locations. **These are hybrids and no particular color can be guaranteed. Strong, 8-10 in. bushes, 50c each; 3 for \$1.35.**

Rhododendron Catawbiense The hardiest of all Rhododendrons; can be successfully grown in northern climates. The Rhododendron is an ornamental shrub that will solve your problem for shady locations as it will grow and do well without much sunlight. In June, every branch has large clusters of rose-purple blooms 4 to 6 inches across. The foliage is the most beautiful of the Rhododendrons, is evergreen all year through. Guaranteed field-grown. **Twice-transplanted stock, 8-10 in. bushes, only 65c each; 3 for \$1.75.**

American Holly (Ilex Opaca). An evergreen tree which has been acclimated to northern states. A moderate grower with spreading, short branches tapering upwards to a narrow head. Broad, oak-like shiny evergreen leaves with spiny teeth. Bush is covered with red berries in the fall, which remain on the branches nearly all winter. **Transplanted, field-grown, 15-18 in stock, 80c each; 3 for \$2.25.**

Firethorn There is no other fruiting evergreen shrub that is so attractive throughout the year as this Firethorn. This shrub has a compact habit of growth, very attractive bright green foliage, which stays on all winter. It has large trusses of white flowers in the summer, followed by brilliant orange-scarlet berries, which persist all winter. **Hardiest of the Firethorns. 15-18 in. shrubs, \$1.00 each; 2 for \$1.75.**

Firethorn

that will be the envy of your neighbors

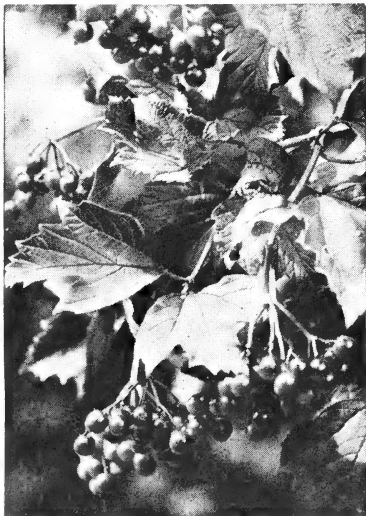

Items of Rare Beauty

Ocean Spray

(*Holodiscus discolor ariaefolia*)

This new shrub was found on the West Coast, at the base of Mt. Hood and even up the mountainside. This graceful shrub has the habits of the *Hydrangea P. G.*, pyramidal in form, flowers of a creamy yellow, blooming in such profusion that the people of Oregon called it the Ocean Spray. This shrub has proven hardy throughout all sections of the country wherever it has been tried. We offer Ocean Spray in blooming size at 70c each; 3 for \$2.00.

American Cranberry Bush

The famous berry used for making jellies and sauces for meats. Selected by the U. S. Department of Agriculture for their specially fine fruit characters. They produce large, showy masses of white flowers in June, followed by clusters of large, brilliant red fruit in late September. Vigorous bush with dark green foliage. Fruit is very high in pectin. Highly ornamental and attractive. 2-yr., 18-24 bushes, 50c each; 3 for \$1.25.

Double-Flowering Dogwood

One of the most beautiful of the Dogwoods. Its very double, showy white blooms appear about ten days later than those of the *Cornus Florida*, thus prolonging the Dogwood blooming season. Trees produce flowers at an early age. Blooms, which are not unlike the gardenia, are often 3½ inches across the outer petals. The large red berries hang on late in winter. A worthy member of a noble family of trees. Fine, 2-yr., 2-3 ft., \$1.50 each; 3 for \$4.00.

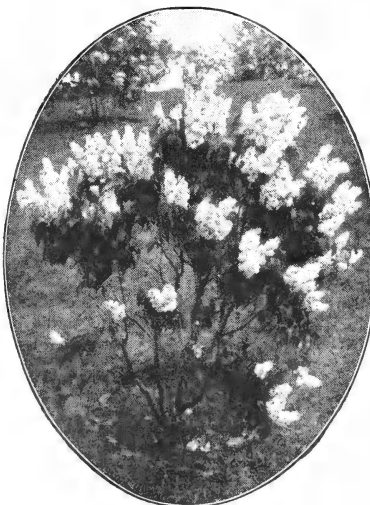

Double Flowering Dogwood

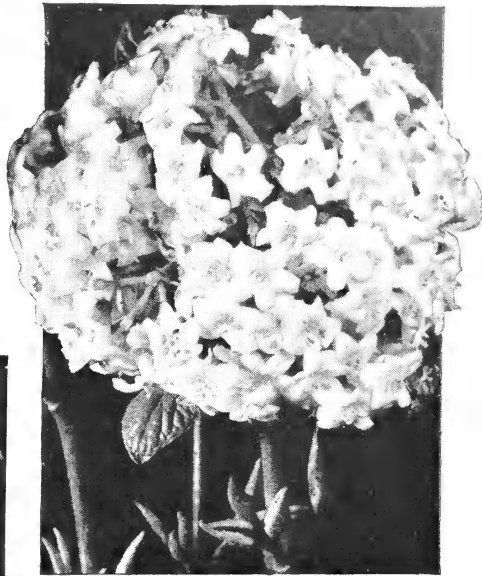

Everblooming Lilacs

(*Syringa Microphylla*)

A rare new shrub introduced from China by the Arnold Arboretum. It has the unique habit of blooming a second time in the autumn and often stray blossoms throughout the summer. Quantities of lilac-pink blossoms in early spring. 2-yr., 18-24 in. shrubs, \$1.25 each; 3 for \$3.25.

Everblooming Lilac

Viburnum Carlesii

Viburnum Carlesii

The New Pink Snowball

A valuable recent introduction. Produces delicate, spice-scented flowers in May and June. The buds are pink, opening into clusters of pure white. The large flowers preserve their form and purity of color an unusually long time. Bush is low growing and of rounded form. 2-yr., 18-24 in. bushes, \$1.05 each; 3 for \$3.00.

Christmas Berry

Christmas Berry

(*Photinia Villosa*)

Beautiful shrub growing 6 to 8 feet high. Shiny green foliage turning to red in fall. Flowers are white. Blooms in early spring. Also highly prized for its brilliant red berries which are cut in early winter for bouquets. 2-yr., 2-3 ft. bushes, 50c each; 3 for \$1.35.

SEEDLESS CONCORD GRAPE (NEW)

It is of the Concord type, but slightly smaller, blue-black in color, and possesses the same fine flavor found in the Concord, but without seeds. Perfectly hardy. 1-yr. plants, 90c each; 2 for \$1.50.

One-Year Blueberry

THE NEW GIANT BLUEBERRIES—ABOUT THE SIZE OF GRAPES

The Sensation of a Lifetime

Biggest Money-maker in the fruit line—farmers who have them are making \$400.00 per acre. For further description and varieties refer to front cover and page 32.

Commercial Growers: Attention!

A chance to save money on your planting stock. Here's a real bargain on one-year Blueberries. Those who wish to get started in the Blueberry game at a small cost, should buy the one-year plants—we are giving you a real bargain on these. Note actual photograph of one-year plant at right and the fruit at left.

Blueberries must have an acid or semi-acid soil, good drainage and moderate supply of moisture. If you are not sure your soil is of an acid nature, have same tested.

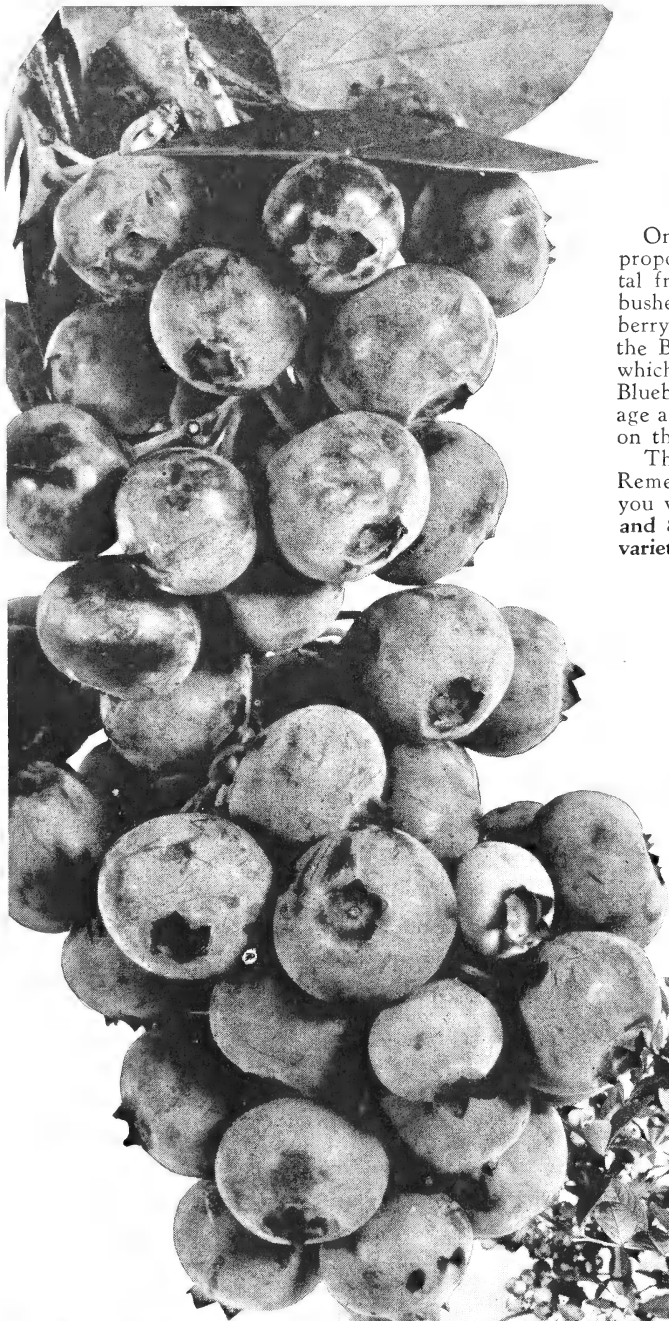

At the low price quoted you can now afford to grow Blueberries commercially.

If you are not ready to plant this year, these plants could be lined out in a nursery row in a small plot and grown for one year or more, and then transplanted into the field the following year. The plants will be growing into money while you are getting your land ready for a permanent patch.

We can supply Harding, Jersey, Rancocas and Rubel, 1-yr. plants.

Price, 1-yr., 4-7 in. Blueberry Plants:
Per 2 4 25 50 75 100
\$0.70 \$1.25 \$5.30 \$9.75 \$13.85 \$16.50
Net, no further cash discount allowed.

NOTE: Do not get confused as to the height on the 1- and 2-year-old plants; there is a vast difference—the 1-year has practically a straight stem only, from 4 to 7 inches in height, whereas the 2-year-old is branched and much heavier, as it has been grown one more year.

GIANT *Blueberries!*

(Photo at left shows actual size of berries)

One of the biggest money-makers as a commercial proposition—see pages 30 and 31. An attractive ornamental from early spring until late fall. Heavy producer—4 bushes in your yard will provide enough berries for Blueberry pie throughout the season. As an ornamental shrub the Blueberry cannot be surpassed; are full of pink buds, which open into bell-shaped, white flowers, starting in June. Blueberries must have an acid or semi-acid soil, good drainage and moderate supply of moisture. Cultural instructions on the planting of Blueberries included with every order.

The 4-, 5-, and 8-year old bushes will produce this year. Remember, the older the bush, the more berries and profit you will receive. **We cannot guarantee varieties in 4-, 5-, and 8-year old, but they will consist of the best standard varieties.**

PRICES OF BLUEBERRIES:

We offer 4 varieties in the 2- and 3-yr.: Rancocas (early to midseason), Harding (midseason to late), Jersey, and Rubel (late).

	2	4	10	25
2-yr., 6-10 in.	\$1.10	\$1.90	\$4.35	\$10.00

Three New Varieties •

The **BEST EARLY**
The **BEST MEDIUM**
The **BEST LATE**

MAYTIME

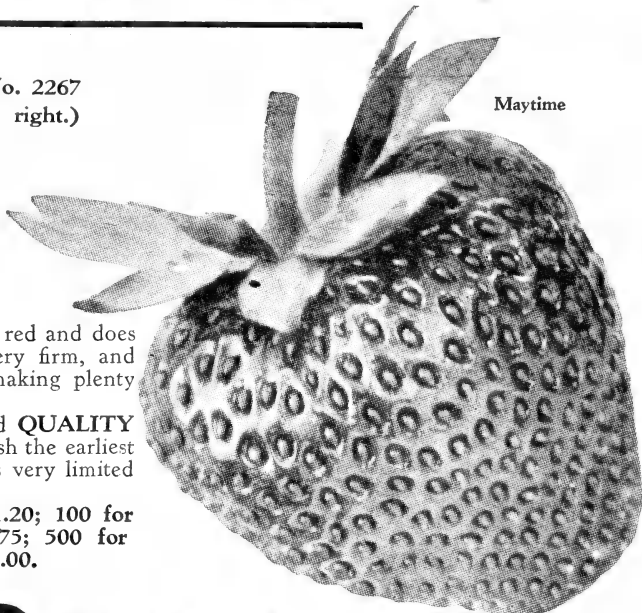

U. S. D. A. No. 2267
(See photo at right.)

Originated by Dr. Darrow. This new variety has been tested for the past seven years by the U. S. Dept. of Agriculture, and introduced as the earliest commercial variety. Trials have proven successful in most all parts of the United States, including all middle-western states.

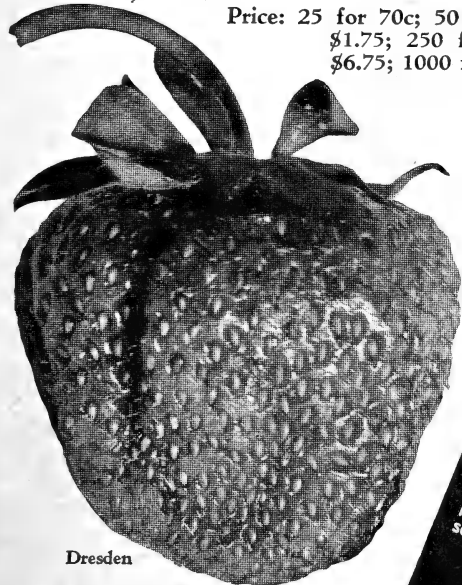

Ripens one week ahead of Premier. Bright, light red and does not turn dark on holding. Deliciously sweet. Very firm, and carry well on long shipments. Vigorous grower, making plenty of healthy plants.

THE BEAUTY, EARLINESS, FIRMNESS and QUALITY of the Maytime make it a winner. Customers who wish the earliest berry known, should try this variety. The supply is very limited—order early.

Price: 25 for 70c; 50 for \$1.20; 100 for \$1.75; 250 for \$3.75; 500 for \$6.75; 1000 for \$12.00.

Maytime

Dresden

DRESDEN

(See photo at left)
Originated by Geo. L. Slate of the New York Experimental Station. Another

outstanding midseason variety that cannot be beat—the berry for the central and northern states! Makes a very strong plant growth—produces enormous crops—as much as 16,000 quarts per acre.

Berries are medium to large in size and somewhat irregular in shape; they are light red in color.

Tests have proven that it will produce as much as 12% more quarts than Premier, which would make it the ideal berry for the gardener who has only a small amount of space.

Price: 25 for 55c; 50 for 90c; 100 for \$1.50; 250 for \$3.25; 500 for \$5.95; 1000 for \$9.00.

RED STAR

U. S. D. A. No. 2124
(See photo at right)

One of the latest of the late varieties known. A fine variety of exceptional beauty and high quality. Does well in all northern states and as far south as Virginia and Missouri. The best price is secured after Southern berries are cleaned up and when Northern early and midseason varieties are off the market, and with this berry to extend your season, you can make some real money.

Berries are bright red—do not turn dark; flesh is juicy but firm. Makes an excellent fruiting row. For the home gardener it means high quality berries for a longer season. Supply is very, very limited this year.

Price: 25 for 80c; 50 for \$1.30; 100 for \$2.00; 250 for \$4.50; 400 for \$6.50. (400 limit this year.)

Red Star

The Three Best Everbearers

GEM Big Profits—two crops a year. Plant this spring—pick all summer—you'll get back the price paid for the plants, and **most important, a big profit besides.** You'll harvest another fine crop the following June—two crops in one year. Unlike most everbearers, this variety is an excellent plant maker. The plants are very healthy and vigorous, producing an abundance of runners, which bear fruit the first season.

BARGAIN

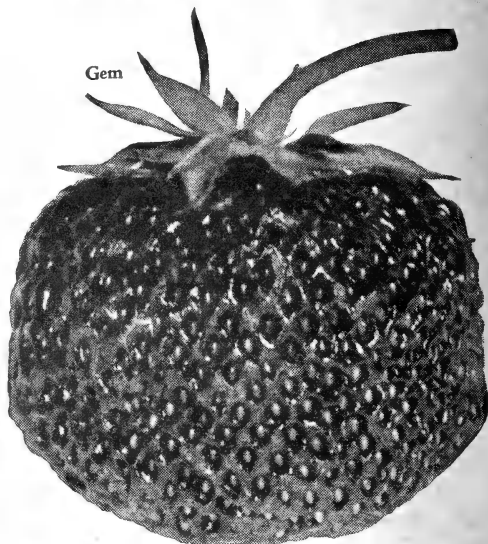

No. 66

50 Mastodon
50 Gem

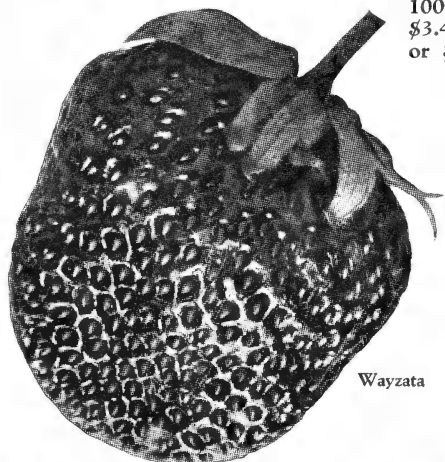

\$1.40

Net, Not Prepaid.

The berries are large, bright red, firm, roundish in shape, rather tart but of good flavor and quality. Good for dessert or culinary uses. Very attractive in appearance and sell well on the fresh fruit markets. Our original stock was secured direct from the originator, Mr. Frank Keplinger. Price: 25 for 55c; 50 for 90c; 100 for \$1.40; 250 for \$3.40; 500 for \$6.00; or \$10.00 per 1000.

Gem

Wayzata

WAYZATA

We might call it a real "hill berry" for the reason that it does not produce more than three or four runners to a plant. A decided advantage to the grower, as he does not have to remove first blossoms or runners. Each rooted crown set out this spring starts multiplying new crowns at once, until it has up to 20 or 25 crowns to a plant. It has ripe berries fully a month ahead of other everbearers. Berries are extremely large, very dark red, delicious, sugary flavor. Heavy producer, continuing to bear long after other everbearers have been stopped by frosts. Price: 25 for \$1.50; 50 for \$2.25; 100 for \$4.15; 250 for \$9.00; 500 for \$16.50; or \$28.95 per 1000.

Wayzata Clumps

As Wayzata makes very few runners, we are now offering a small quantity of two-year clumps. They are especially grown and are many times the size of the one-year runner plants. They have lots of crowns to the plant, each crown producing fine berries—will bear heavily the first year. These clumps bear so heavily that they must have plenty of moisture. A few plants will supply enough fruit for a small family. A real buy at our low prices. Berries all summer and all fall the first year and a good crop the following year. Price: 2-yr. clumps—18c each; 5 for 75c; 12 for \$1.45; 25 for \$2.50; 50 for \$4.50; or \$8.00 per 100.

MASTODON

Ripe Strawberries 90 days after planting. All summer, all fall, all next year—all from one planting. There is only one true Mastodon—the introducer's original strain. We have it. Grown easily with no special soil or culture. Withstands dry weather. Plants hardy and productive, producing runners freely for an everbearing variety. Berries large to very large, round, conic in shape, dark scarlet in color. Flesh firm, excellent flavor. One of the largest everbearers, of large, uniform size from beginning to end of season. Fruit continuously until freezing weather, bear full crop next spring after planting.

Every Mastodon plant sold by us bears our guarantee of genuineness and satisfaction. Do not be misled into paying fancy prices for this variety, but let us reserve yours now at one of the lowest prices available for true-to-name stock. Price: 25 for 70c; 50 for \$1.10; 100 for \$1.85; 250 for \$4.15; 500 for \$7.50; or \$14.00 per 1000.

NOTICE: In anticipation of a heavy demand, we have grown and provided an unusually large stock and expect to be able to fill all orders during the life of this catalog.

Should new or additional taxes be imposed pertaining to our purchase or selling of any nursery stock listed in this catalog, or should there be an unusual increase in our nursery cost due to changed market conditions, taxation, or other causes, or should the selling price of any such nursery stock be increased by Government action, we reserve the right to adjust our prices accordingly.

Mastodon

EARLY, MEDIUM and LATE

a fine combination

Premier

Still the leading early berry. A standard of excellence with all growers, and the earliest worth-while

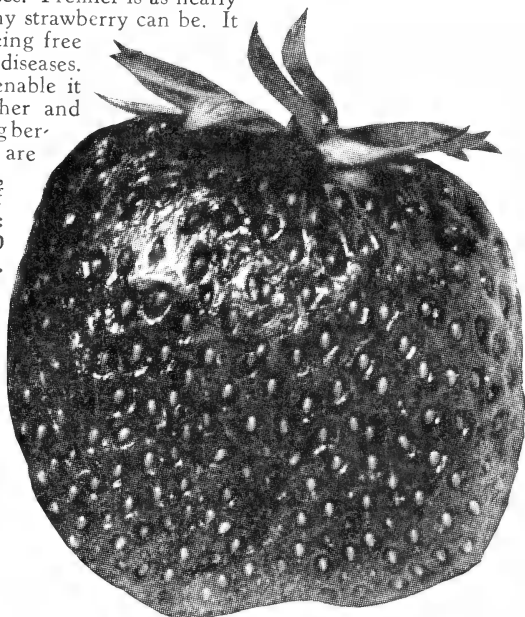

Strawberry of the older varieties. A great money-maker, for it yields its fruit crop at a time when strawberries are in great demand and sell at fancy prices. Premier is as nearly frost-proof as any strawberry can be. It

is unusually healthy, being free from leafspot and other diseases. Its deep, heavy roots enable it to withstand dry weather and mature a full crop of big berries when many varieties are a complete failure. Large, bright red, firm berries, of fine texture and flavor. Price: 25 for 35c; 50 for 60c; 100

for 90c; 250 for \$2.00; 500 for \$3.65; or \$6.75 for 1000.

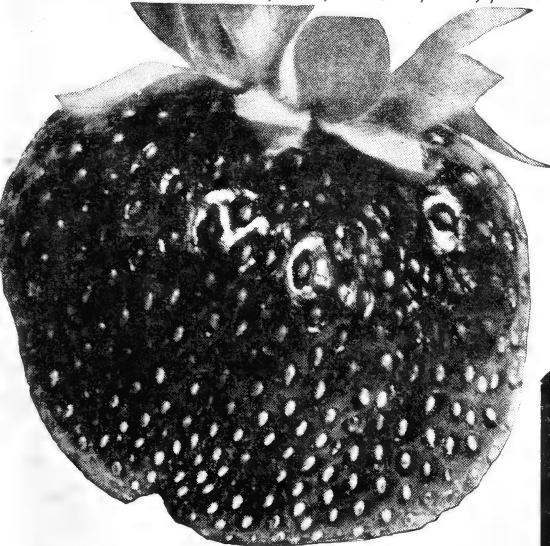

Dorsett Early

Developed by the U. S. Department of Agriculture. Berries are very firm, firmer than Premier, and are a beautiful light red in color. They hold this color well, and for this reason, together with their attractive shape and extra fine quality, will undoubtedly become the leading commercial variety. Large, beautiful bright red berries of the finest flavor. Very productive. Vigorous and healthy plant maker. Early as Premier. Very frost-resistant. Price: 25 for 45c; 50c for 75c; 100 for \$1.00; 250 for \$2.35; 500 for \$4.25; \$7.50 per 1000.

Fairfax Medium

This variety is also an origination of the U. S. Department of Agriculture. Fairfax ripens several days after Dorsett and Premier, darker red in color. Berries are exceptionally firm. Flavor of the finest, coupled with the vigorous, healthy and productive growing habits, and the large, beautiful berries, undoubtedly makes this one of the leading midseason Strawberries. Price: 25 for 45c; 50 for 75c; 100 for \$1.00; 250 for \$2.35; 500 for \$4.25; or \$7.50 per 1000.

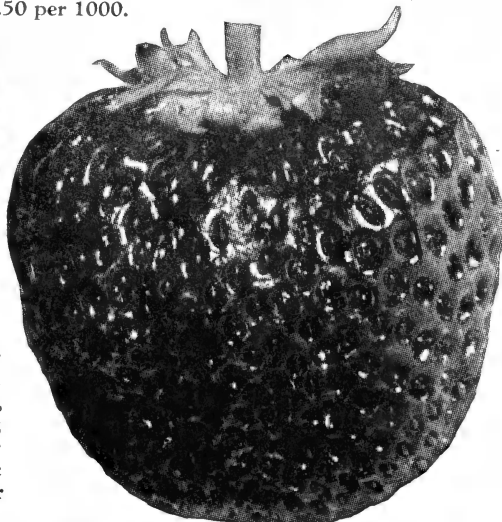

Catskill Late

This variety was introduced by the New York Experiment Station. It is a cross between Premier and Marshall, and has been known to outyield the famous Dorsett and Fairfax. Makes a fine, vigorous plant growth; fruit stems are thick and grow upright; leaves are exceptionally large. Late ripening. Good quality berries average the size of Fairfax, and hold their size well to the end of the picking season. Price: 25 for 45c; 50 for 75c; 100 for \$1.00; 250 for \$2.35; 500 for \$4.25; or \$7.50 per 1000.

New Varieties

NEET

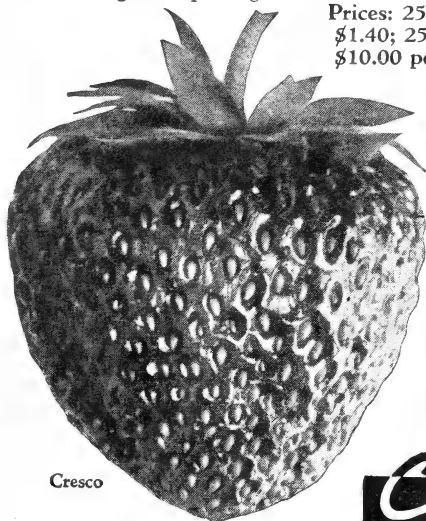

The Best Early. Your First Crop of Plants Is the Last! The Second and Third Crop as Good as the First!

This variety was introduced five years ago. This variety was originated by George W. Neet, of Dana, Indiana. Is a seedling of the old Haverland and Premier; closely resembles the Premier, but is much hardier, larger, better flavored, and invariably produces more fruit, and has a better fruiting stem. It also produces a fine crop the second and third year, which is just as good as the first crop—a trait not found in any other variety we have grown; you do not have to replace your planting every other year as your patch gets better from year to year, whereas most varieties are not picked more than 1 to 2 years, after which the patch is plowed under. Berries are extra large, dark glossy red, not quite as dark as Premier, but glossier; red clear through and no white tips. Berries are uniform in shape, no misshaped fruit in this variety. Very sweet flavor, much sweeter than Premier. Ripens early. Not soft but very firm and a good shipper. Very hardy. Makes a vigorous plant growth on most any soil. Very disease-resistant.

Prices: 25 for 55c; 50 for 90c; 100 for \$1.40; 250 for \$3.40; 500 for \$6.00; or \$10.00 per 1000.

Neet

Cresco

CRESKO

of both parents; berries are much larger and are bright scarlet-red, which color it retains after fruit is canned. No hollow centers or cores, no green

**Thrift Garden
Bargain No. 30**

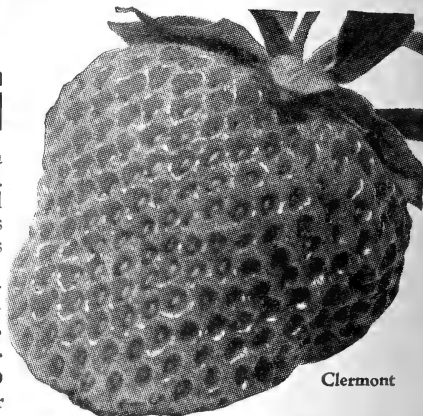

50 Late Giant
50 Neet
50 Clermont

\$1.75 Net,

FREE! 25 Cresco

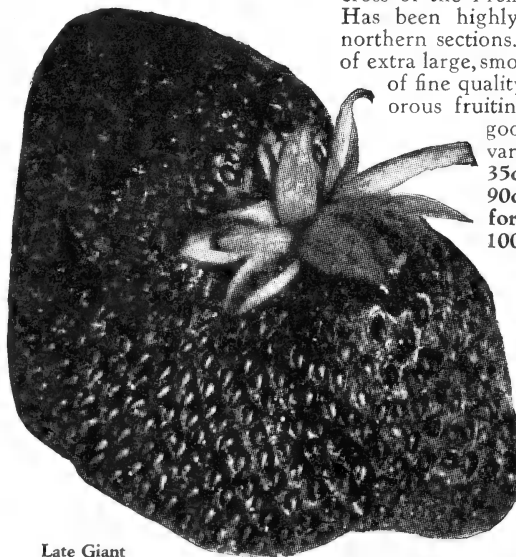

The variety is a Premier-Dunlap Cross. Every housewife wants berries in her garden for canning purposes and table use. Cresco fills the bill, as it has the rich flavor and canning qualities of the Dunlap and retains the heavy yielding ability of both parents; berries are much larger and are bright scarlet-red, which color it retains after fruit is canned. No hollow centers or cores, no green tips on the berries. Truly an improved Dunlap. 50 to 100 plants will supply enough berries for an average family. Will grow on any soil; makes a good fruiting row where others fail. Midseason ripening. **Prices: 25 for 35c; 50 for 50c; 100 for 80c; 250 for \$1.85; 500 for \$3.50; or \$6.00 per 1000.**

Clermont

This new variety is a seedling from a cross of the Premier and the Marshall. Has been highly praised in most all northern sections. It bears heavy crops of extra large, smooth, bright red berries of fine quality. Makes a strong, vigorous fruiting row, and is a very good midseason-ripening variety. **Price: 25 for 35c; 50 for 60c; 100 for 90c; 250 for \$2.00; 500 for \$3.65; \$6.75 per 1000.**

Clermont

Late Giant

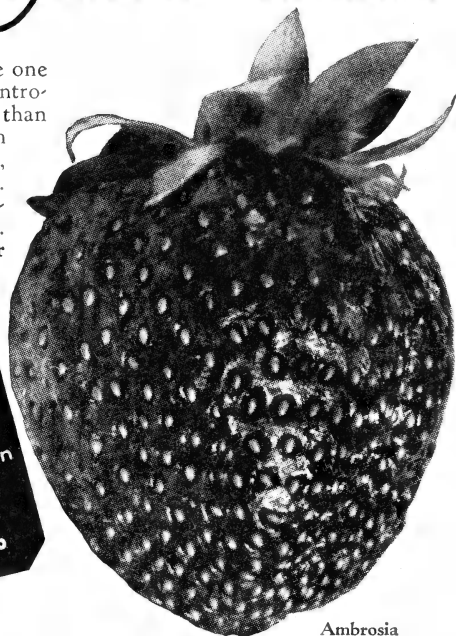

LATE GIANT

The best late. A late berry as good as Premier, Dorsett, Fairfax, or all early and midseason leading varieties, and so late that it doesn't begin to blossom until you are picking the other kinds—so late in fact, that there will be no waiting between strawberries and raspberries. Berries are dark red all the way through, are honey-sweet and have the flavor of a wild strawberry; is a giant in size, make a good fruit row on any soil; berries are firm and hard, of extra good quality and a heavy cropper—300 to 500 crates per acre. **Price: 25 for 55c; 50 for 90c; 100 for \$1.40; 250 for \$3.40; 500 for \$5.85; or 1000 for \$9.50.**

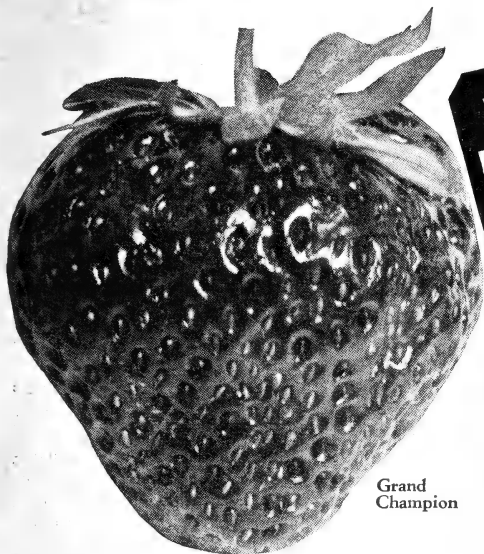

Ambrosia

This variety is considered to be one of the largest late berries ever introduced. Ripens a month later than

Premier. Very hardy. Produces large, vigorous plants, which often grow 18 inches tall; rigid fruit stems often grow 6 to 8 inches tall, which keeps the berries off the ground, which means clean fruit. Berries are very large, semi-pointed, rich, sparkling, bright red. Delicious sweet flavor. Firm flesh and skin. Matures every berry to full size. Price: 25 for 55c; 50 for 80c; 100 for \$1.15; 250 for \$2.60; 500 for \$4.95; or \$8.00 per 1000.

GRAND CHAMPION

The 40-Day Fruiting Berry

Lasts over this period on account of its continual blooming. Starts to ripen with the earliest and bears throughout the whole Strawberry season;

ends up with the latest varieties. Plants are very large with extra heavy foliage, which protects the blooms from freezing in the spring. Never has a crop failure. Berries are large in size, bright red and coreless; excellent flavor and of highest quality.

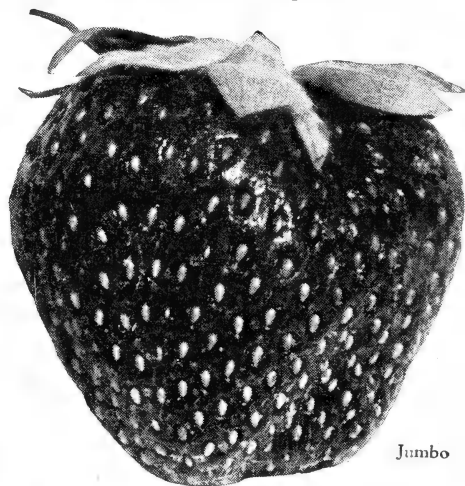

5000 Quarts on One-Half Acre. One of the heaviest producers. We have counted as high as 90 berries on one plant. Commercial growers are planting this variety in a big way.

Our planting stock was secured direct from the originator; you are therefore assured of genuine Grand Champion when buying from us. Price: 25 for 45c; 50 for 75c; 100 for \$1.00; 250 for \$2.35; 500 for \$4.25; or \$7.50 per 1000.

Jumbo

A Real Elephant in Size

Very large, deliciously sweet, fine flavor. Bright red. Firm, ships well. Good plant maker. So drought-resistant it has come through some of the driest seasons without losing a plant. Heavy foliage—not subject to leaf spot. Ripens midseason. Price: 25 for 45c; 50 for 75c; 100 for 90c; 250 for \$2.10; 500 for \$3.75; or \$7.00 per 1000.

Jumbo

SURPLUS STRAWBERRY PLANTS

During our spring packing season there are always a small quantity of strawberry plants in several varieties left in the packing house at the end of the day. We do not wish to carry them over from day to day as all of our stock is guaranteed fresh-dug; we therefore offer them to you at a special low price. They will consist of all good standard varieties of our own selection, labeled true-to-name.

Please do not ask for named varieties in this offer. No less than 200 plants can be furnished at this special rate.

Price: 200 for \$1.25; 500 for \$2.25; 1000 for \$3.75. Net, not subject to special cash discounts.

Bargain No. 70

250 Blakemore

250 Dunlap

\$2.25

Net, Not Prepaid.

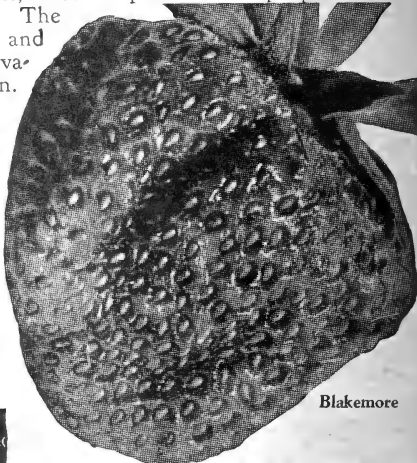

SENATOR DUNLAP

This is one of the oldest varieties commonly planted today and never for a single season since its first appearance years ago, has it lost even the smallest part of its well-earned popularity that has made it famous the world over. At the present time there are more Senator Dunlap being planted than ever before, proving conclusively that it is one of the surest, most dependable all-purpose Straw-

berries. The hardest and toughest variety grown.

In fact, so hardy and adaptable that it produces a fruit crop anywhere, even in locations so unfavorable that many promising varieties fail entirely. Our supply of this variety is limited. Order early and avoid disappointment.

Price: 25 for 30c; 50 for 50c; 100 for 75c; 250 for \$1.65; 500 for \$3.00; or \$4.75 per 1000.

Blakemore

BLAKEMORE

Extra early, ripening same time as Beaver, and 4 to 5 days before Premier. A cross between Premier and Missionary. Strong, vigorous grower and extra good plant maker. Berries are bright red, and resemble Premier, although they are somewhat larger and of better color. Very firm and a good shipper. Excellent canner. Will undoubtedly take the place of Missionary and Klondyke in the South, and will do well in the North anywhere Premier has been grown. Price: 25 for 30c; 50 for 50c; 100 for 75c; 250 for \$1.65; 500 for \$3.00; or \$4.75 per 1000.

GARDEN ROOTS

Mary Washington Asparagus

This variety was developed and introduced by the United States Department of Agriculture. It is rust-proof, early and productive; stalks large and tender. Heads are solid and compact; stalks are often more than an inch in diameter; crisp and delicious. There is no waste with Mary Washington, for every tip is healthy and usable. Price: 1-yr. selected, 12 for 20c; 25 for 35c; 50 for 55c; 100 for 90c; 200 for \$1.35; 300 for \$1.85; 400 for \$2.30; or 1000 for \$5.50. 2-yr., No. 1, 12 for 40c; 25 for 70c; 50 for \$1.10; 100 for \$1.65; 200 for \$2.95; 300 for \$3.75; or \$9.00 per 1000.

Rhubarb

MYATT'S LINNAEUS. It is an early, tender variety, without being in the least tough or stringy, with a mild, sub-acid flavor.

VICTORIA. This new variety has giant size stalks, twice the size of ordinary Rhubarb; very tender, fine flavor. Trifle later than Myatt's Linnaeus.

GRAPE VINES

Fredonia The new, outstanding early black Grape. Fredonia is the earliest good black Grape, ripening 15 days earlier than Concord. The vine is vigorous and productive—bears the second year. Of finest quality; the clusters are medium size, cylindrical and very compact; berries large, round, and hang well to the bunch; the skin is thick and tough; the flesh is juicy, solid, but tender. One of the best American red juice varieties.

Golden Muscat Possesses a rich golden color and the fine Muscat aroma of the European Muscat. For home use and the roadside market, it is one of the best. The vine is vigorous, productive; the clusters are very large, tapering, single-shouldered, and compact. The berries are large, oval, juicy, tender, sweet, vinous and aromatic. Ripens 10 days later than Concord.

Caco Fruit is very large, rich wine-red in color; flavor of the finest, very rich and sweet. Excellent quality. Ripens in September. Vines are hardy, strong and vigorous growers, very prolific.

Concord Most popular large, purplish black Grape. Large shouldered, compact bunch. Flesh is juicy, sweet and tender, excellent flavor. Vine a strong grower, very healthy, hardy and productive. Ripens in October.

Delaware Berries are compactly set, light red, sugary and delicious. Is one of the very best red varieties, bring highest prices on any market.

Moore's Early An early black variety, similar to Concord in looks and quality, but ripens one week earlier. A peculiar sweet flavor of its own. Vines are hardy and good bearers.

RED RASPBERRIES **REAL MONEY MAKERS**

LATHAM *First Choice of Commercial Growers*

A popular favorite in all large fruit-growing sections. Extra large, rich red berries, some measuring an inch in diameter. Bears a tremendous crop of best quality fruit. Finest berry for canning. Perfectly hardy. Commands highest prices. Plants are state inspected, disease-free, of finest quality, heavy and well rooted. Price: 1-yr., No. 1 plants, 12 for 50c; 25 for 80c; 50 for \$1.50; 100 for \$2.50; 250 for \$5.50; 500 for \$9.75; or \$17.50 per 1000. 2-yr., transplants, 12 for \$1.00; 25 for \$1.65; 50 for \$2.85; 100 for \$4.95; 250 for \$10.65; 500 for \$19.25; or \$35.00 per 1000. Medium grade, 1-yr., \$1.25 per 100, in lots of 100 or more.

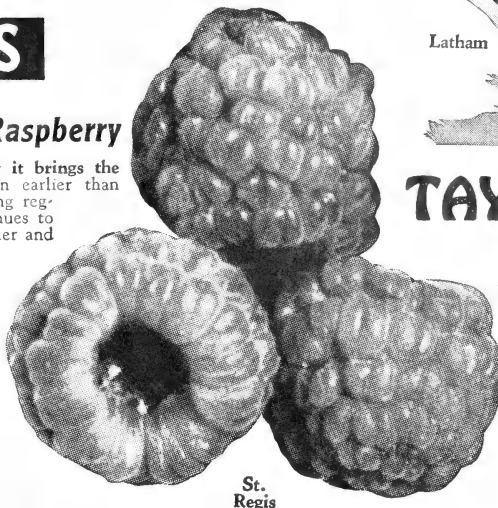

CHIEF *Best Extra Early*

A very popular early variety. Offspring of the famous Latham. Has proven hardy, disease resistant, a heavy cropper, of excellent quality and a good shipper. Berries large, rich bright red. Ripens ten days earlier than Latham, bridging the gap between Strawberries and Raspberries. Price: 1-yr., No. 1 plants, 12 for 45c; 25 for 70c; 50 for \$1.20; 100 for \$2.05; 250 for \$4.50; 500 for \$8.50; or \$16.50 for 1000. 2-yr., transplants, 12 for \$1.00; 25 for \$1.65; 50 for \$2.85; 100 for \$4.95; 250 for \$10.65; 500 for \$19.25; or \$35.00 per 1000. Medium grade, 1-yr., \$1.25 per 100, in lots of 100 or more.

St. REGIS

Everbearing Red Raspberry

Comes on the market so early it brings the very highest prices. Ripens even earlier than Chief. Produces a full crop during regular Raspberry season, and continues to fruit heavily throughout the summer and fall. Berries have a delicious flavor. Excellent shipper. Price: 1-yr., No. 1 plants, 12 for 45c; 25 for 70c; 50 for \$1.20; 100 for \$2.05; 250 for \$4.50; 500 for \$8.50; or \$16.50 for 1000. 2-yr., transplants, 12 for 70c; 25 for \$1.25; 50 for \$2.15; 100 for \$3.95; 250 for \$9.00; 500 for \$16.50; or \$30.00 for 1000. Medium grade, 1-yr., \$1.25 per 100, in lots of 100 or more.

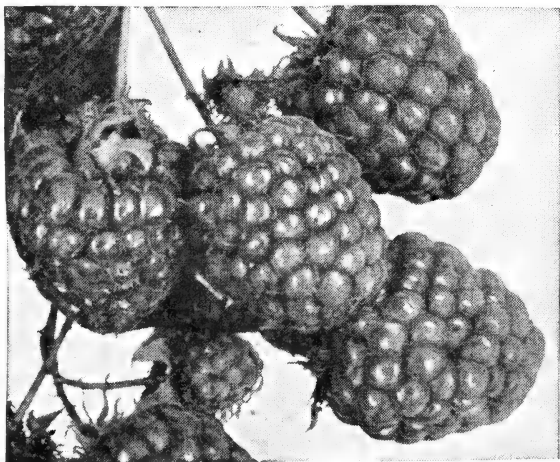

Latham

St. Regis

TAYLOR New Red Raspberry

Promises to be our best late red Raspberry. Fruit large and holds size well through season. Bright medium red, long, conical shape, firm, will not crumble in shipping. Very hardy. Plants are tall, sturdy, vigorous, with stalky canes. Ripens with Latham. Price: 1-yr., No. 1 plants, 12 for 65c; 25 for \$1.10; 50 for \$1.85; 100 for \$3.00; 250 for \$7.00; 500 for \$13.25; 1000 for \$24.00. 2-yr., transplants, 12 for \$1.00; 25 for \$1.65; 50 for \$2.85; 100 for \$4.95; 250 for \$10.75; 500 for \$19.75; or \$36.00 for 1000.

Indian Summer

INDIAN SUMMER *Everbearing Red Raspberry*

An everbearing variety decidedly superior to any of the other fall-bearers or so-called everbearing red Raspberries. Bears in the summer as other Raspberries and also in the fall, beginning in September and continuing till frost. Berries are large, somewhat conical and slightly irregular in shape; of medium red in color and of high quality. Plants are hardy and vigorous. Price: 1-yr., No. 1 plants, 12 for 70c; 25 for \$1.20; 50 for \$2.10; 100 for \$3.65; 250 for \$7.65; 500 for \$14.00; or \$26.00 for 1000. 2-yr., transplants, 12 for \$1.00; 25 for \$1.65; 50 for \$2.85; 100 for \$4.95; 250 for \$10.75; 500 for \$19.75; or \$36.00 for 1000.

CUMBERLAND

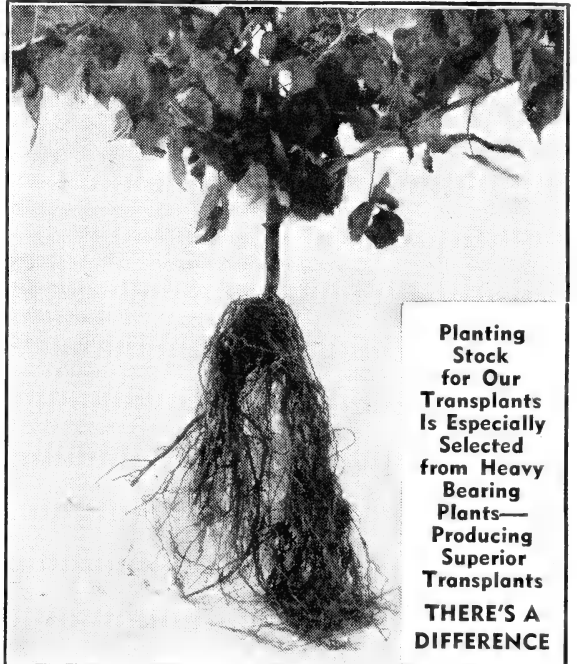

The Largest of All Blackcaps and the Very Best Midseason Kind. No Blackcap has ever been grown as extensively as Cumberland, nor attained its great popularity. A heavy yielder; berries large, rich black in color, fruit firm and of delicious flavor. Bush is absolutely hardy, vigorous growing, producing plenty of fruiting wood; especially free from anthracnose, the common disease of all Raspberries. Prices: 1-yr., No. 1 tips, 12 for 45c; 25 for 80c; 50 for \$1.45; 100 for \$2.25; 250 for \$5.00; 500 for \$8.85; 1000 for \$15.95. MEDIUM GRADE: 1-yr. tips, \$1.25 per hundred in lots of 100 to 900, or \$11.00 per 1000. 2-yr. transplants, \$1.25 for 12; 25 for \$2.00; 50 for \$3.65; 100 for \$6.50; 250 for \$15.00; 500 for \$27.50; or \$50.00 for 1000.

NEW LOGAN

Most Dependable Early Black Raspberry. The berry ripens one week earlier than Cumberland. It is an extra heavy yielder, with berries as large or larger than Cumberland. Price: 1-yr., No. 1 tips, 12 for 45c; 25 for 80c; 50 for \$1.45; 100 for \$2.25; 250 for \$5.00; 500 for \$8.85; 1000 for \$15.95. MEDIUM GRADE: 1-yr. tips, \$1.25 per hundred in lots of 100 to 900, or \$11.00 per 1000. 2-yr. transplants, \$1.25 for 12; 25 for \$2.00; 50 for \$3.65; 100 for \$6.50; 250 for \$15.00; 500 for \$27.50; or \$50.00 for 1,000.

NEW MORRISON

Originated in northern Ohio by the late Fred Morris. We quote Mr. Morris: "In fruit, it has the biggest black raspberries that I ever saw and I have been growing Cumberland for years, but they look small besides the Morrison. Very drought-resistant—will produce a nice crop where other varieties are practically a failure. Very hardy. Ripens midseason to late. New Morrison stands head and shoulders above other standard blackcap varieties, and its distribution will certainly give new life to the blackcap industry." Order early—get in on the ground floor—supply of plants very limited. See front cover for actual photograph. Price: 1-yr., No. 1 tips, 15c each; 6 for 75c; 12 for \$1.25; 25 for \$2.25; 50 for \$4.00; 100 for \$7.50; 250 for \$17.50; 500 for \$30.00; or \$50.00 for 1000.

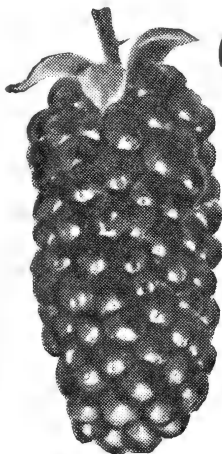

Planting Stock for Our Transplants Is Especially Selected from Heavy Bearing Plants—Producing Superior Transplants THERE'S A DIFFERENCE

A Cumberland Transplant

ALL RASPBERRIES ARE TWICE INSPECTED

The ACKERMAN NURSERIES Blackberries

Increase your profits. One acre of Blackberries will average 2000 to 2300 quarts per acre, and prices on this fruit are always high. The best money-making berry for the past three years.

ALFRED Blackberries

The Blackberry without a Core. Alfred ripens early, about a week in advance of other kinds. Berries are of immense size, some measuring 3 inches around and 2 inches in length. Color is jet black; flavor sweet and delicious. Very hardy, and can be grown anywhere without winter protection.

LUCRETIA Dewberries

The first to ripen. Ten days earlier than Blackberries. A real money-maker. Brings a big price on any market and makes real profit for the grower. For quick money, plant two-year stock.

Of the Blackberry type, but produced on trailing vine instead of an upright bush. Very hardy and disease-resistant. Berries are extra large, lustrous black, sweet and juicy. **UNEXCELLED FOR CANNING.**

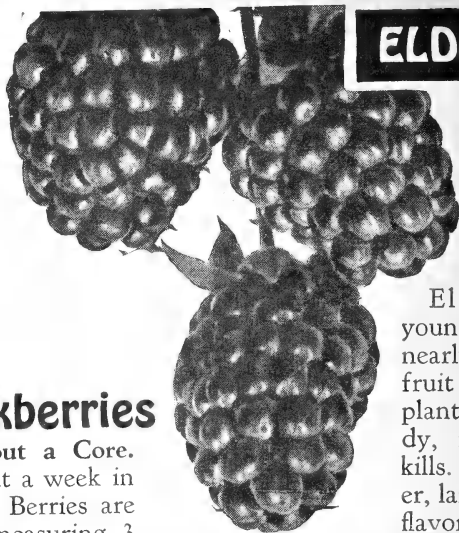

New Variety BARGAIN No. 38

- 12 Thornless Boysenberry, early
 - 12 Nectarberry, late
- Covering the entire season.

\$1.65
Net, Not Prepaid.

ELDORADO

The Best Commercial Blackberry

Eldorado bears young, providing nearly a full crop of fruit the year after planting. Very hardy, never winter-kills. Vigorous grower, large berries, fine flavor, and excellent quality. Very productive; fruits over a long season and insures a big profit to the grower. Highly recommended for commercial planting.

NECTARBERRY

Something new! Originated at Benedict Rancho, El Monte, Calif. The Nectarberry is a seedling of the Youngberry. Berries are as large as Boysenberry—larger than Youngberry, and on looks alone might be mistaken for either. Ripens about 3 days later than Boysen, much sweeter than Boysen, better flavor and much spicier than either Boysen or Youngberry. It has remarkably few and soft seeds and no noticeable core. When eaten either fresh, canned or frozen, the berries retain their fresh fruit flavor. Heavy producer, outyielding both varieties. For the past two years, the Nectarberry vines went through the winters in Ohio, Michigan, Washington and New York without injury though not mulched; has withstood temperatures of 15 to 20 below zero. However, in severe cold sections, substantial mulching is advised; this can easily be done as the vines are always left on the ground until spring. Very drought resistant—will withstand most any drought and still produce a good fair crop.

A fair trial of this new variety will convince you of its merits. Note bargain.

A Real Money Maker—Big Yields—Large, Sweet, Juicy

New BOYSENBERRY

This splendid new variety is a cross between youngberry, blackberry, and raspberry—combines the best flavor of all three—the highest quality of all bramble fruit. The extremely large berries are dark maroon in color. Every garden should have a few plants of this immense berry.

They are just as easy to grow as blackberries. They produce a large crop, not because there are more berries, but because each berry is so much larger—berries often are two inches in length. Has a rich, tangy flavor all its own. The few seeds are scarcely noticeable. Plant 6 feet apart in rows 6 feet across; train on wires the same as dewberries. You will be surprised at the berries you can get from a dozen plants. We know after giving this variety a trial, you will agree with us that they are the finest berries you have ever tasted, either fresh, canned, in jams, jellies or pies.

Currants THE BEST KINDS

Currants are among the easiest of all fruits to grow, bearing good crops even when neglected.

Red Lake Originated recently at the Minnesota State Fruit Breeding Farm—finest of all Red Currants. The berry is unusually large in size and of superior quality; the clusters are long and filled out to the top, with stems sufficiently long to make picking easy. Berries are a clear light red and the quality excellent. The bush is vigorous, upright, and productive. Ripens early midseason, but holds on over a long period so it can be used or marketed as desired. The New Red Lake stands head and shoulders above any variety formerly grown in the Northwest.

Wilder Bunch and berries very large; moderate acidity. An immense yielder, always dependable.

Perfection Generally considered the best currant. Large, bright red berries with rich, mild flavor, with plenty of pulp and few seeds. Good bearer.

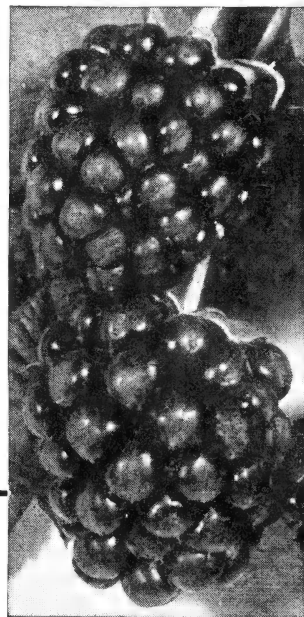

Perfection Currant

Thornless BOYSENBERRY

Entirely thornless! Think of picking real large berries without a chance of scratching your hands!

These large, sweet, juicy berries are often 2 inches in length. Similar to the common thorny Boysenberry described at top of this page, but ripens two weeks earlier. Absolutely hardy — will not winter-kill. Excellent canner and valuable for table use, jellies and pies. See front cover for further description. Note special bargain on page 42.

GOOSEBERRIES

Downing Large, handsome fruit, green in color; fine flavor; immense cropper and always in demand. An American variety, free from mildew.

Red Jacket A new red berry, larger than Downing. Smooth, very prolific and hardy. Quality and foliage of the best. Absolutely free from mildew. An English variety, and one of the best.

1-yr., SPECIAL SUPER-SIZE, 11/16 in.40	3.50	27.00

FERTILE-HALE This new variety will produce full crops of beautiful large peaches, entirely free from all so-called "buttons" so prevalent in crops of J. H. Hale, for it is self-fertile. Season little later than Elberta. Fruit very large; flesh yellow, with deep carmine blush. Very hardy freestone. Splendid market variety. Protected under U. S. Plant Patent. Price: 1-yr., 7/16 in., 45c each; 10 for \$3.50; \$25.00 per 100. 9/16 in. trees, 50c each; 10 for \$4.00; \$30.00 per 100. Net, not subject to any cash discount.

RED ELBERTA PEACH U. S. Plant Patent No. 232. This rich red-all-over Peach is identical with Elberta in tree and fruit with a much improved flavor, but ripens 10 days earlier. The flavor is exquisitely rich, sweet, and free from all bitterness. It is fine textured, firm, and able to hold up for long-distance shipping and canning requirements. The rich red color sells the fruit on sight and demands as high as 75c more per bushel than other Peaches. Price: 1-yr., 7/16 in., 3-4 ft., 50c each; 10 for \$4.00; 100 for \$30.00. 9/16 in., 4-5 ft., 60c each; 10 for \$5.00; 100 for \$35.00. 1-yr., 11/16 in., 5-6 ft., 70c each; 10 for \$6.00; 100 for \$45.00. Price is net, not subject to any cash discount.

RIO-OSO GEM This variety is protected under U. S. Patent No. 84. Ripens about ten days after J. H. Hale, during that period when there are few Peaches on the market. This new Peach has the extreme large size of J. H. Hale; is more highly colored, of finer grained texture, firmer, and of better general quality. Yellow freestone. The Ackerman Nurseries are licensed to distribute this fine new yellow freestone Peach—but to eight states only, viz.: Ohio, Indiana, Illinois, Missouri, Michigan, Wisconsin, Minnesota, and Iowa. Price: 1-yr., 7/16 in., 3-3½ ft. trees, 60c each; 10 for \$5.00; 100 for \$40.00, net, not subject to any cash discount.

HARDEE New Peach Resists Zero Weather! Extensive experiments have shown Hardee to have come through the driest summers and coldest winters undamaged, whereas the balance of the peach crop was a complete failure. The fruit is large to above large, Elberta type, ripening a little later, yellow freestone, highly colored, is distinct and delicious. Firm flesh, of the best quality, thick-skinned, making it an excellent shipper. Vigorous grower and will produce a nice crop the third year on most any kind of soil or climate. End winter-killing with Hardee. Protected under U. S. Plant Patent No. 120. Price: 1-yr., 5-7/16 in. trees, 55c each; 10 for \$4.00; 100 for \$30.00, net, not subject to any cash discount.

Rio-Oso Gem

ACKERMAN'S

PEACHES

Standard
COMMERCIAL
VARIETIES

Absolutely true-to-name, vigorous, well grown, perfectly healthy, with well-ripened wood and splendid roots. Guaranteed to reach you in good growing condition.

SOUTH HAVEN An extra large, fancy, early yellow variety which combines all the good features of Elberta—large size, excellent quality, delicious flavor, beautiful appearance, and immense productiveness, but it ripens 15 days earlier. Rapid growing, young bearing.

J. H. HALE Ripens 5 days earlier than Elberta, is larger, and superior in flavor; beautiful golden yellow with carmine blush, smooth, fuzzless.

HALE-HAVEN A cross between South Haven and J. H. Hale. Freestone. Strong grower, very hardy, heavy bearer; excellent, fine flavor. Ripens 15 days earlier than Elberta. The best New Yellow Freestone we have seen for years.

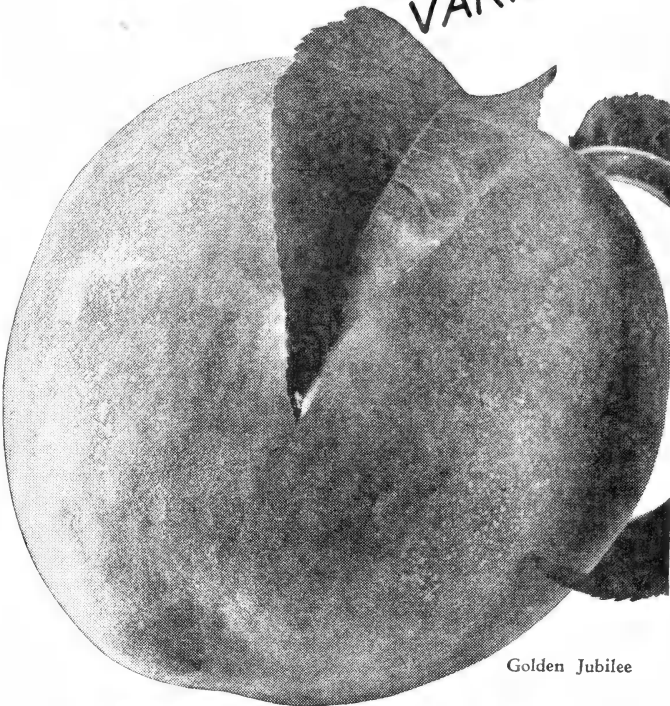

ELBERTA Standard market Peach of the entire country. Very large; yellow with red blush; flesh is yellow, tender and juicy; very highly flavored, rank, vigorous growers. Ripens middle of September. Freestone.

GOLDEN JUBILEE Tree habits and fruit resemble Elberta, but ripens about a month earlier. The skin is yellow with red blush; flesh golden yellow, juicy, tender, sweet, and freestone. Very hardy, regular bearer.

KAL-HAVEN This new variety originated at the South Haven Experiment station, in Michigan. It is a cross between J. H. Hale and Kalamazoo. It ripens just before Elberta, although will overlap the season of the latter variety. Freestone. Yellow with beautiful coloring. Large in size, and an excellent shipper. Fine flavor. Tree vigorous, hardy, and productive.

You will not find any spindly whips and poorly branched stock offered for sale in our nursery. We cannot afford to sell them and you cannot afford to plant them.

NURSERIES

HI-QUALITY

Delicious

Cortland

The Best Standard Apples

Baldwin Winter Apple. Large, roundish, dark red, of rich flavor. Excellent keeper. Tree hardy, quick, strong grower. Heavy cropper.

Cortland An offspring of the McIntosh, but fruit larger, more uniform in size, more highly colored, richer in flavor, firmer but fully as juicy. Clings to tree more tenaciously, and ripens 3 to 4 weeks later. Fine for cooking. A good shipper. Bears 2 or 3 years after planting.

Dbl. Red Delicious The new, superior Delicious. Fruit is red all over as early as August when other Delicious are still green. Extra fine flavor. Brings highest prices on the market. Supply is limited, so order early.

Yellow Delicious Best yellow Apple. Waxy golden color. Luscious flavor, finest in the world. Bears very early, in 2nd and 3rd year. Keeps until late spring without becoming mealy. Very hardy. You'll make more money with our Yellow Delicious.

Grimes Golden Winter Apple. Medium to large size; skin golden yellow; delicious sparkling flavor. Tree very hardy and productive. Bears young.

Jonathan Grand, good winter Apple. Bright, solid red. Flesh white, sometimes tinted with red; firm, fine, crisp and tender. A splendid family sort and highly profitable for market. Tree long-lived, productive and an early bearer. Will keep well without especial care; also stands much handling.

McIntosh Red Medium size, nearly covered with dark red. Flesh white, tender, juicy and crisp. Similar to common McIntosh but colors earlier. Tree hardy, vigorous and healthy.

Red Northern Spy Red Spy is a typical Spy except in color. The color is solid bright red without either stripes or splashes. Flesh white, tender, mild, sub-acid. Reliable bearer.

Red Rome Beauty An improved variety, which has a solid, deep red color. Large winter Apple of good quality. Thick skinned, stands handling well and a good keeper. Bears young.

Stayman's Winesap A good early winter keeper. Fruit large, bright red color. Flesh tinged with yellow; firm, crisp, with pleasant, rich acid flavor appealing to everyone.

Yellow Transparent Ripens in July. One of the best; early. Skin clear white, changing to pale yellow when ripe. Flesh white, tender, sub-acid.

Wealthy Ripens late summer and early autumn. Perfectly hardy, vigorous and productive. Fruit large, red streaked with white. Quality good.

Hyslop Crab Apple Fruit medium; yellow grounded with heavy shadings of deep crimson and splashes of maroon with heavy blue bloom. Flesh fine, firm, yellow, astringent. Bears abundantly. Season, September to October.

APPLE TREES ONLY the BEST of the BETTER APPLES

Baldwin

Jonathan

Anoka

The Old Folks' Apple!

The second year, big, full-sized crop; earliest and heaviest bearing Apple. Hardy in all climates; never winter-kills. Can be grown anywhere in the United States. Ripens in August but can be used a month earlier. Apples are good sized, well formed, beautifully colored. Has proven to be one of the very best early summer Apples for all purposes.

Every home should have Anoka. One or two trees in your yard will furnish you a bountiful supply of fruit without long years of waiting.

Sweet Cherries

Schmidt's Bigarreau Bears young, very heavily, is very hardy and a sure cropper. Immense size, deep black; flesh dark, tender, very juicy, fine flavor. Ripens in July.

Black Tartarian Very large, purplish black, heart-shaped, flesh mild and sweet, and quality considered, one of the best for market and dessert. Tree is vigorous, upright grower and immense bearer. Ripens in July. We recommend this as one of the best Sweets for home use.

Napoleon (Royal Ann). Of fine appearance and very largest size. Color yellow and amber, with bright red blush; flesh firm, juicy and delicious. Profitable for market, finding a ready sale both for canning and dessert. Bears enormous crops, ripening in July.

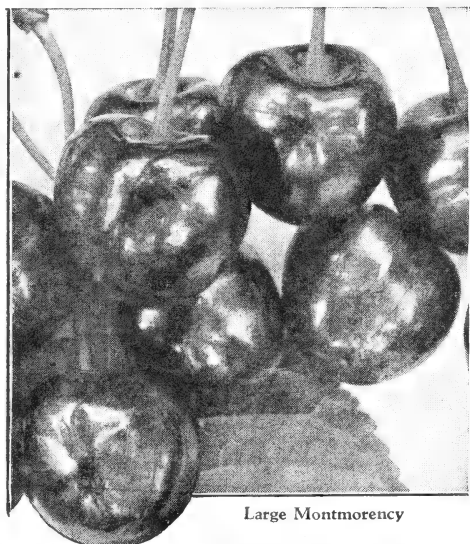

Windsor Fruit large, dull red; flesh remarkably firm, of fine quality, and a good bearer. Tree hardy and prolific. Ripens middle of July. Highly recommended by some of the most prominent fruit growers of the country. A valuable addition to any garden or orchard.

Bing One of the best known and most popular dark sweet Cherries. Fruit large, dark colored, nearly black. Considered one of the most profitable. Tree hardy and vigorous. Seems to succeed in the East better than most Sweets. Ripens late June. Should be included in every planting.

Large Montmorency

The 2^{WORTHWHILE} Sour CHERRIES

We have discontinued propagating all sour Cherries except the two varieties listed as they have proven so far superior to other kinds that we have decided to offer our customers only the best. 90% of all Sour Cherries grown in the United States consist of these two varieties.

Large Montmorency

The leader of all Sour Cherries. Ripens midsummer. One of the finest flavored Sour Cherries. Bears enormous crops regularly. Best all-around Cherry grown. Tree bears two to three years from planting. The best Sour Cherry for pies and home use.

	Each	10	100
2-yr., 9/16 in., 3-4 1/2 ft.	\$0.55	\$5.00	\$40.00

All 9/16 in., 3 1/2 to 4 1/2 ft. trees.	
\$2.45	Net, Not Prepaid.

Richmorency (Early Ripening Montmorency). New! Large! Extra Early. Ten days earlier than Montmorency. Largest Sour Cherry grown—red, very juicy, fine flavor.

These facts are of decided advantage, as the size, quality, and earliness of this Cherry bring a much larger profit.

Should replace all other Sour Cherries. Similar to Charlevoix, but better.

	Each	10	100
2-yr., 9/16 to 11/16 in., 3 1/2-4 1/2 ft.	\$0.60	\$5.00	\$40.00

Sweet September CHERRY

NEW FALL-BEARING CHERRY
U. S. Plant Patent No. 94

A new find in sweet Cherries! Ripens September first and hangs until the snow flies. Bears the second or third year after planting! Fruit is dark red, similar to Windsor.

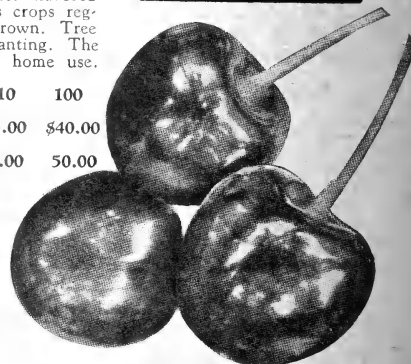

There is no record in the history of horticulture of a fall-bearing Cherry until the accidental discovery of the parent tree which produced 15 bushels in one year. All fruit was sound and perfect, no worms, rot, or leaf spot without ever having been sprayed. Hardier than the average sweet Cherry. For some unknown reason ripens its fruit in September instead of June although the tree blossoms at the same time as other standard varieties.

	Each	10
1-yr., 3-4 ft. trees	\$1.25	\$10.00

Stanley Prune

Profitable

PLUMS

Stanley Prune Superior to all Prunes as it often comes into bearing in 3 years, and ripens 10 days earlier than Italian or German Prune. Hardy, never winter-kills. A more thrifty and rapid grower than all other sorts. Very productive. Fruit large, deep bluish purple; firm and sweet, excellent quality. Will replace all other Prunes as soon as stock is available. The best for commercial planting or home use. Get started with this grand new variety this year.

German Prune Large, dark purple, sweet. One of the best for commercial planting. Excellent for drying and canning. Ripens in September.

Burbank Fruit large and of excellent quality; cherry-red, with lilac bloom. Tree hardy, and heavy yielding. Ripens in August.

Reine Claude (Green Gage). Large, yellow-green, juicy, melting, sugary and delicious. Because of its rich flavor, one of the best for eating and canning. Ripens quite late. Very hardy and productive.

Waneta Our most popular Plum. Generally bears next year after planting. Fruit is very large, reddish purple, good quality. Ripens in August. Very hardy and rapid grower. Planted all over America.

THE CHERRY YOU ARE
LOOKING FOR

New August Supreme CHERRY

U. S. Plant
Patent
No. 126

Here's a brand new Sweet Cherry that commercial growers and customers who have roadside stands and local markets are looking for because it ripens the middle of August, extending the Sweet Cherry season. This cherry has no competition as it ripens when all other cherries are gone—fruit is sure to sell and bring higher prices. If you want to extend your season and make some real money when other cherries are gone, this is the variety for you.

Cherries are very red, almost black in color, similar to Black Tartarian; high in quality. The tree itself is vigorous and productive. One or two of these trees in your back yard will be a novelty in your community and also furnish you with a bountiful supply of fruit. Price: 1-yr., 3-5 ft. trees, \$1.25 each; 10 for \$10.00, net, not subject to any cash discount.

Red Haven PEACH

A big sensation in Michigan. Sold for 5 times as much as other varieties on the Benton Harbor market this year. 30 DAYS EARLIER THAN ELBERTA. Almost completely covered with a brilliant red color. Heavy producer; will make A-grade fruit if thinned. Same shape as Elberta. Yellow freestone; sweet in flavor. Firm flesh and tough skin indicate better shipping and handling qualities. An excellent early-maturing peach.

Trees are vigorous and very productive. The scaffold branches usually originate at wide angles with the trunk which add to their strength. Fruit buds much hardier than those of Elberta. Self-fertile—trees can be planted in solid blocks.

The best early peach for home use or commercial planting. Supply very limited.

Price: 1-yr., 7/16 inch, 3 ft. and up trees, 65c each; 3 for \$1.80; 10 for \$5.50; or \$50.00 per 100. Net, no cash discount allowed.

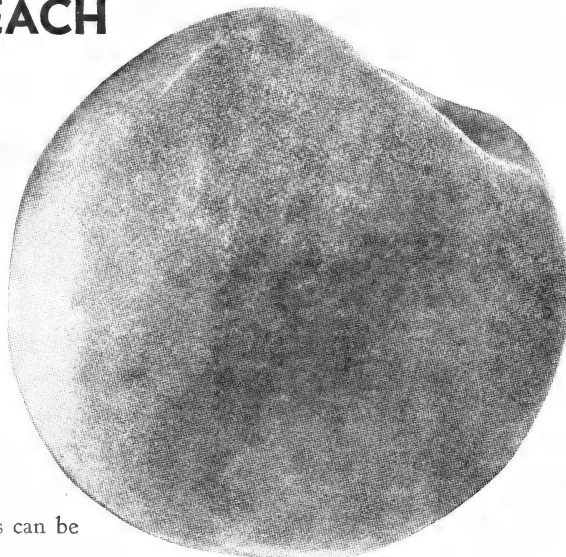

Paul Rose Cherry

(White Schmidt's Biggareau)

Something New In White Sweet Cherries! Originated from a sport limb on a black Schmidt's tree in the orchard of the late Paul Rose, the pioneer Sweet Cherry grower in Michigan. A white Cherry of large size, firm, tender, and juicy; a fine flavor. Ripens in July.

For years we have been looking for a white sweet Cherry that has the size, quality, firmness and flavor of the black Cherry—we now have it in the Paul Rose. Proven by far to be the best all-purpose white sweet Cherry. This Cherry is outstanding for canning purposes, to eat out of hand, or to sell on roadside stands, as it is unique in color—the skin is of a pink color with a narrow black band, whereas the flesh of the cherry is white. Place your order early, for the supply is limited.

"TAILOR MADE" FOR HOME PLANTING

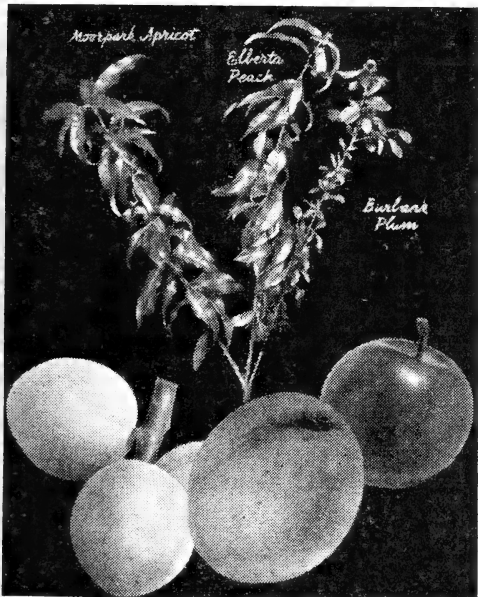

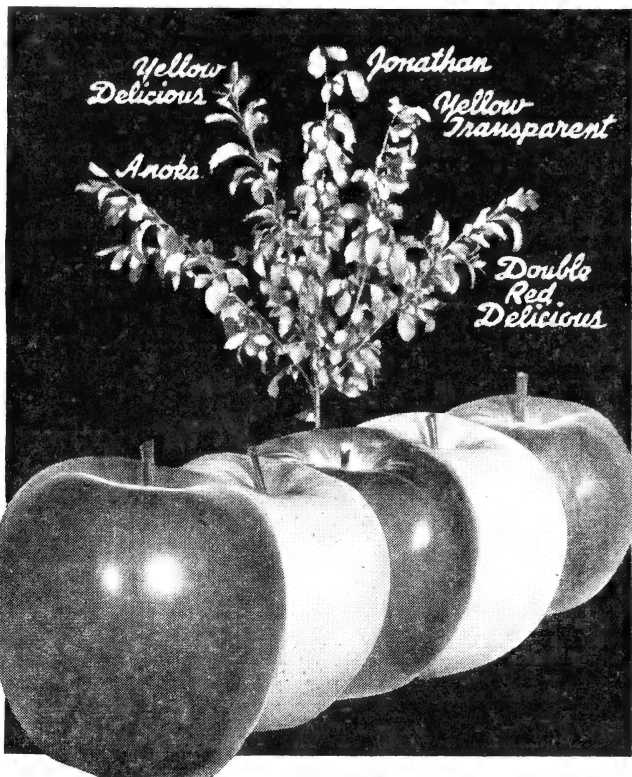

A Whole Orchard
at Your Own Doorstep

5-N-1 and 4-N-1 APPLE TREES

Four or Five Kinds of Apples on One Tree!
Ideal for Home Gardens

The only Apple tree for the small home owner. No yard too small; can be planted in the front yard as well as the back. Will furnish plenty of shade, be highly ornamental, and also will produce a bountiful supply of either four or five different kinds of Apples. The varieties on the 5-N-1 tree are: Yellow Transparent, Anoka, Red Spy, Jonathan, and Red Delicious. These are five of the best standard varieties of Apples — practically covering the entire season. The 4-N-1 Apple trees are of the same type, but one of the five buds did not grow; therefore, one of the above-mentioned varieties will not be on the tree, but we are unable to advise which variety. An outstanding novelty in your community.

PRICE:	Each	3
5-N-1 Apple tree, 2-yr., 4 to 6 ft.	\$1.00	\$2.75
4-N-1 Apple tree, 2-yr., 4 to 6 ft.75	2.10

3-N-1 FRUIT TREE

Moorpark Apricot—Elberta Peach—Burbank Plum

This tree, which is highly ornamental and which provides a complete orchard, does not require any more space than an ordinary fruit tree. Covered with pink and white bloom over a long period. Two trees will produce enough fruit in Apricots, Peaches and Plums for an average family, and have enough left over for your neighbor. Will bear the third year after planting. Something new and different in tree fruits! Be the first in your neighborhood to plant this all-purpose tree.

PRICE:	Each	3
3-N-1 Fruit tree, 2-yr., 9/16 in., 4-5 ft. ...	\$1.00	\$2.75

4-N-1 Pear Tree

Four Leading Varieties on One Tree! Early Harvest, Bartlett, Garber, and Kieffer. Early, Medium and Late.

A tree of merit for the small home owner. No yard too small — can be planted in the front yard as well as back. One of the handsomest trees while in bloom — loaded with white flowers. Also will produce a bountiful supply of Pears to eat out of hand, for canning and pickling. BEARS EARLY.

PRICE:	Each	2
4-N-1 Pear tree, 2-yr., branched, 9/16 in., 4 to 5 ft.	\$0.85	\$1.50

PEARS

Best Commercial and Home Orchard Kinds

Bartlett Large; coloring when fully ripe, to waxen yellow with red blush; juicy, melting, highly flavored. Tree bears early and abundantly. Fruit ripens in September.

Kieffer Best Pear for large commercial planting. Ripens in October and November. Fruit large and of good quality.

Lincoln A very fine large, yellow, blushed-red, late-summer Pear which bears young and heavily, and is delicious for eating and canning; fine keeper. Succeeds where others fail. Fast grower, extremely hardy. Ripens October. This variety can be supplied in 9/16 in. grade only.

Seckel (Sugar Pear). Small size; yellowish russet, with red cheek. Flesh white, buttery, very juicy and melting. Ripens in September and October.

COPE'S Seedless Pear

(Patent Applied For)

Brand new variety — something different. Think of it — no seeds, practically coreless — solid all the way through. Ideal canning Pear — no waste of time or fruit. Extra large size, Bartlett-type fruit. Clear yellow skin blushed red. Pure white, fine-grained flesh. Sweet and delicious. Ripens 10 days later than Bartlett. Bears in three years. Five-year-old trees have produced three bushels of perfect fruit. So far has not shown signs of blight. PRICE: 2-yr., 9/16 in., 3½-5 ft. trees, \$1.25 each; 3 or more at \$1.00 each. Price is net, not subject to any cash discount.

- 1 Orange Quince

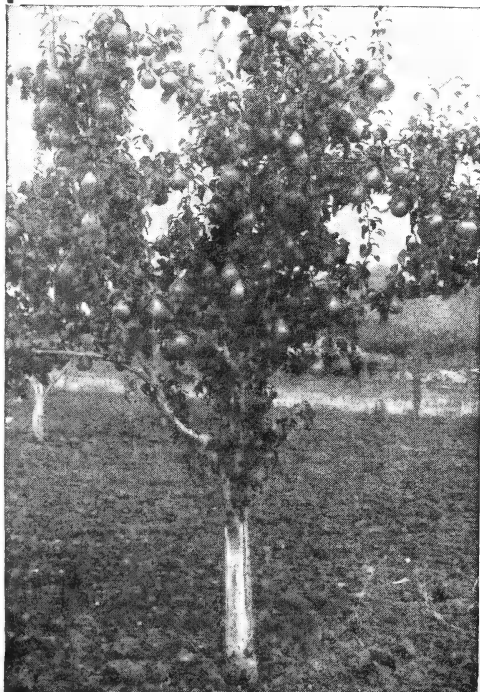

\$1.25

Net Not Prepaid.

Bartlett Pear

Dwarf Pear Trees

Bear large, full-sized fruit, the same as standard trees, and usually come into bearing the second year.

These trees solve the problem of fruit growing in small areas. They never grow over 6 to 8 feet high, and are very ornamental for the lawn or garden; come into bearing earlier than the standard trees and are very productive. Dwarf trees bear 4 to 6 bushels of Pears per tree, and the fruit is of the same size and flavor as the fruit of standard trees. Dwarf fruit trees are very flexible in manner of growth, and by pruning, can be trained to grow against buildings, fences or walls.

We are offering the Clapp's Favorite (early) and Bartlett, which are two of the outstanding all-purpose varieties in pears. State variety wanted.

PRICE:

2-yr., 3-ft. trees, 49c each; 3 for \$1.35.

QUINCES

Orange Sometimes called Apple Quince. Fruit large, round with a short neck; color bright yellow; flesh tender, juicy and of excellent flavor. Highly regarded for jellies and preserves. Trees bear young. A good tree to plant on hillsides or where land is hard to work, as it requires very little care.

PRICE:

2-yr., 9/16 in. trees, 65c each;
3 for \$1.80;
10 for \$5.50.

Orange Quince

OFFER No. 58 BEGONIAS

Not to be compared with the common kinds, for they are the highly prized Camellia-flowered tuberous-rooted Begonias.

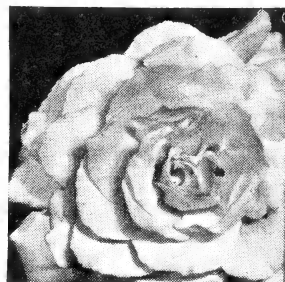

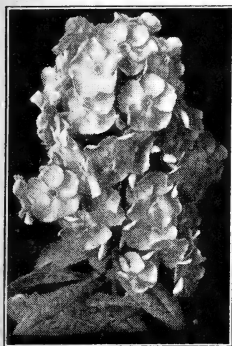

Produce large, beautiful blooms which resemble a double Camellia. Bloom practically all summer. Grow 8 to 12 inches tall. When grown outside, take up before cold weather. Many shades and colors. No particular color can be guaranteed.

Net, postpaid in U. S.

PHLOX OFFER No. 57

A grand assortment of many of the

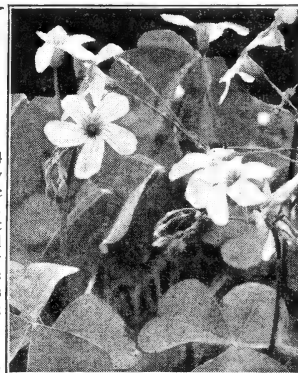

new varieties, which consists of one each: Lillian, Caroline Vandenburg, Salmon Glow, Morgengood, Annie Laurie, Innocence, Rosenburg and Hauptmann Koehl. All colors. All labeled. This is the assortment you have been looking for to complete your perennial bed. We guarantee them to arrive in good growing condition. Plants sturdy and field-grown.

"GOOD LUCK" Shamrock

(Oxalis)

This unique little plant derives the name of "Good Luck Plant" from its foliage, for it has 4 leaves like the lucky-clover. Brilliant pink flowers are produced on 8 to 10 inch stems from early summer until frost. Very attractive rich green Shamrock foliage which is shaded maroon in the center of each leaf. Ideal for borders, mass bedding, rockeries, hanging baskets or window boxes. It is amazing the number of blooms these small bulbs will produce throughout the season. Plant them about 3 inches deep as soon as the ground warms up in the spring, and dig them in the fall after frosts have killed the tops, and store them the same as Gladiolus bulbs. Although they prefer a sunny location, will grow in any kind of soil, anywhere. If planted in a double row, 6 inches apart each way, you will have an especially effective solid border, one foot wide, 8 to 10 inches tall, which will provide an array of bloom from early summer until frost. PRICE: 20 for 55c; 50 for \$1.10; 100 for \$2.00, postpaid. Net, not subject to a cash discount.

Ackerman's Popular Giant Dahlias

Jersey's Beauty The most popular pink. 40c each; 4 for \$1.35.

Laura Morris Clear, pure, beautiful yellow. 35c each; 4 for \$1.20.

NEW HOUSE PLANTS

Dwarf Orange

Hardy Fuchsia

Hardy Fuchsia

This hardy variety produces hundreds of ruby-red pendulent flowers. An everbloomer—blooming all summer long until stopped by frost. Tops freeze back in the same manner as does the Buddleia—new growth springing up from the base early in the spring. **Sturdy plants from 2 1/4-inch pots, 35c each; 3 for 90c; 6 for \$1.75, not prepaid.**

New Dwarf Orange (Otaheite Orange)

A grand pot plant, and one of great beauty and novelty. Its glossy green leaves, deliciously fragrant waxy white blossoms create a most pleasing sight. Although it attains a height of 3 to 4 feet, it is not uncommon to have 6-inch plants full of bloom and producing a few oranges. Fruit is about one-fourth the size of an ordinary orange, very sweet and delicious. A 5-inch pot has been known to carry 10 to 12 oranges at one time.

We offer strong young plants from 2 1/4-inch pots, at 40c each; 2 for 70c, postpaid. 4-inch pots, at \$1.00 each, postpaid. Prices are net, not subject to any cash discount.

American Wonder Lemon

Grows Lemons Indoors on Small Plants

The American Wonder Lemon, sometimes offered as Ponderosa Lemon, are the most unique plants ever offered for indoor culture. Plants are covered with waxy white flowers several times each year, which are nearly as large as Tuberoses and as fragrant as Orange Blossoms, which they resemble. The flowers are followed by very large lemons of high quality. The fruit oftentimes weighs more than a pound. **Strong plants from 2 1/4-inch pots, 35c each; 2 for 60c, postpaid. 4-inch pots, at \$1.00 each, postpaid. Prices are net, not subject to any cash discount.**

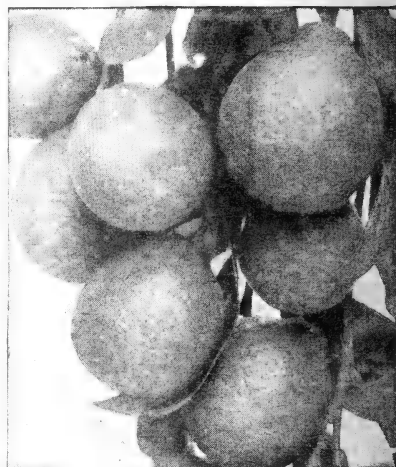

IMPORTANT NOTICE: Because of quarantine we cannot ship Lemon or Orange trees to any of the following states: Alabama, Arizona, California, Florida, Georgia, Louisiana, Mississippi, Texas, and Porto Rico.

THE ROSE GARDENIA Gardenia Veitchi

The Gardenia is the most popular and most fashionable flower of today—the flower of romance! It makes a grand house plant. Spring and summer blooming—blooms from early spring until fall. Flowers are waxy white; foliage is thick, rich glaucous green. Plants prefer a warm living room temperature. Culture same as for geraniums. **Price: Strong plants from 2 1/2-inch pots, 40c each; 3 for \$1.00, postpaid. Prices are net, not subject to any cash discount.**

ROSE HOPPER

ASPARAGUS ~

New Paradise

Save a Full Year — Plant This Spring —
Harvest the Following Year!

MATURES ONE YEAR EARLIER. Very large stalks of exceptionally fine quality; unusually heavy producer. Here we have a better Asparagus that grows a larger crop a FULL YEAR EARLIER, and continues to bear heavier crops year after year.

MORE PROFITS IN LESS TIME. The tender, crisp stalks are so large it takes only 6 to 8 to make a pound. As this variety matures ONE YEAR SOONER and produces larger stalks, this means larger returns each year and MORE PROFITS IN LESS TIME.

EXCELLENT VARIETY FOR FREEZING. Another point in its favor is the fact that it is an excellent variety for freezing. With the recent large increase in production and demand for asparagus throughout the country, one of the principal outlets for asparagus will be freezing it for the market. The far-sighted grower will take this important point into consideration in choosing the variety he will grow. He will choose PARADISE because this variety is just as tender, green and fine flavored after freezing as it is a few hours after picking.

For the home gardener it is the best possible variety to plant because the same space occupied will produce so much more, and better Asparagus. Paradise Asparagus, like Mary Washington, is highly resistant to rust.

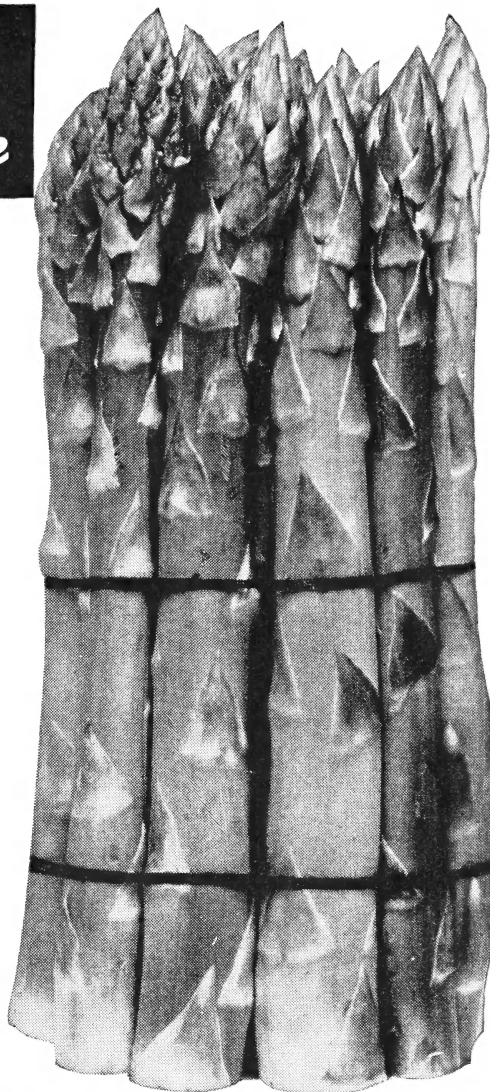

THE FIRST VEGETABLE TO COME IN THE SPRING. After a long-drawn-out winter, nothing that comes out of the home garden is so much appreciated as the tender stalks and tips of Asparagus. A small bed of them kept weed-free or a border along the garden edge, will supply an average table for six weeks or more in the early spring. The first vegetable to come in the spring; include 100 with your order and have access to an early, fresh vegetable.

MacDonald

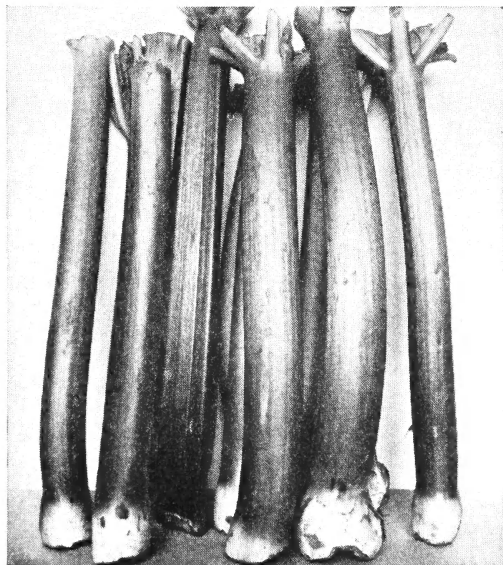

RHUBARB

A new variety that is all red, exceptionally large stalks that are very tender and sweeter than common rhubarb and requiring less sugar. Very fast grower—grows so rapidly that you can cut stalks from it a year sooner than you can from the old style green-stalked varieties. The flavor and fibre of the stalk are excellent and when cooked the dish is of an attractive pink color.

Plant some of this splendid Red Rhubarb this year. It yields heavily and lasts a lifetime. When once you have tried MacDonald, you will grow no other. We recommend this new variety most highly for both home and commercial planting.

PRICE: Strong divisions, 35c each; 3 for \$1.00; 6 for \$1.80; 12 for \$3.25; 50 for \$11.00.

**BARGAIN
No. 62**

**3 HARDY
MAGNOLIA
TREES**

One of each
variety listed.

\$1.85

Net, Not Prepaid.

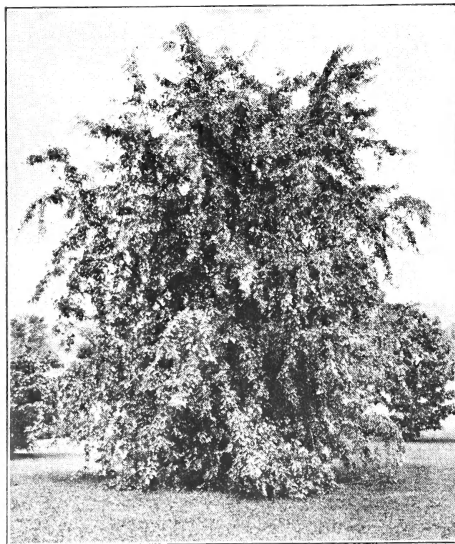

Soulangeana

Liliflora

Nigra

Three of the Best Hardy **MAGNOLIAS**

Magnolia Soulangeana

This is the most decorative and popular of the hardy Magnolias, producing very large, rose-colored blooms, often measuring from 3 to 5 inches across, just before leaves appear in the spring. Matures to a height of 8 to 10 feet. 18-24 in. trees, \$1.25 each; 2 for \$2.35.

Magnolia Liliflora

Tulip-shaped, large, purplish pink flowers before leaves appear in the spring. Very hardy. Leaves are large and glossy. This shrub-like tree produces many stems from the ground and makes a large bush. 2-yr., transplanted 12-18 in., 75c each; 2 for \$1.35.

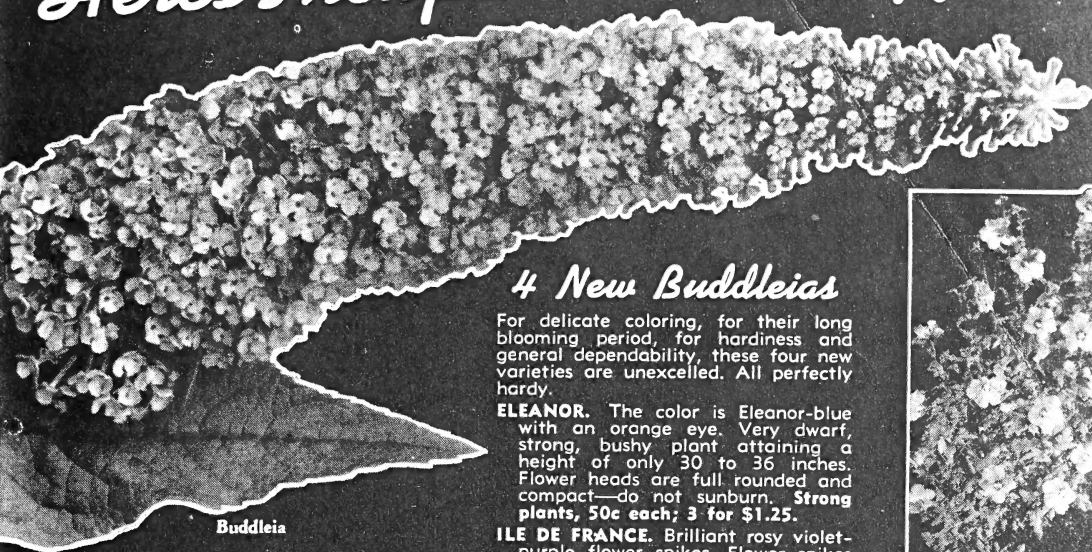

Magnolia Soulangeana Nigra

One of the hardiest and finest of all the Magnolias. Flowers are a beautiful purple-red shade outside, while the inside is a delicate waxy white. Blooms measure from 5 to 7 inches across. Fine, 12-18 in. trees, 75c each; 2 for \$1.35.

Fern-Leaf Weeping Maple

Anyone seeking something rare and different for a shade tree should plant one of these unusual Maples. A beautiful tree with fern- or thread-like leaves. Its heavy foliage and many drooping branches make it most attractive for an ornamental shade tree. Exceptionally hardy and a very rapid grower. Fine, 6-8 ft. trees, \$1.00 each; 2 for \$1.75.

Here's Inexpensive Beauty for You!

Buddleia

4 New Buddleias

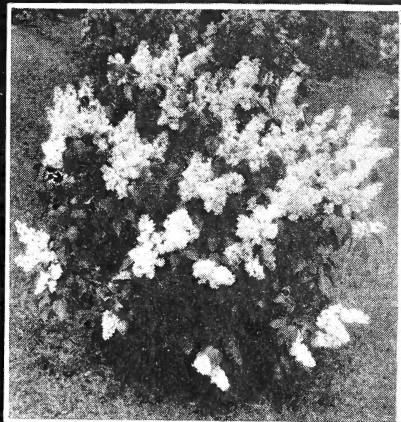

For delicate coloring, for their long blooming period, for hardiness and general dependability, these four new varieties are unexcelled. All perfectly hardy.

ELEANOR. The color is Eleanor-blue with an orange eye. Very dwarf, strong, bushy plant attaining a height of only 30 to 36 inches. Flower heads are full rounded and compact—do not sunburn. Strong plants, 50c each; 3 for \$1.25.

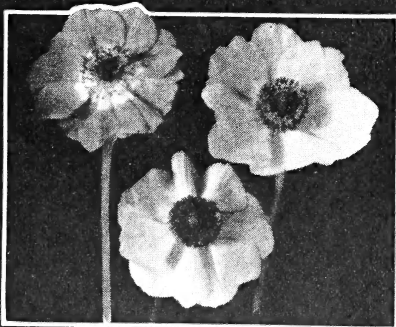

ILE DE FRANCE. Brilliant rosy violet-purple flower spikes. Flower spikes often a foot tall. Strong plants, 40c each; 3 for \$1.00.

PINK CHARMING. Elegant long sprays of beautiful pink blooms—often 12 to 15 inches long. Produces a bushy plant 5 feet high. Strong plants, 50c each; 3 for \$1.25.

ROYAL RED. Brand New! The first truly red variety ever offered. Produces armloads of graceful 12- to 15-inch racemes of gorgeous ruby-red flowers from July until late fall. Reaches height of 5 to 6 feet the first year. Hardy; will live for years. Strong plants, 75c each; 3 for \$1.95.

French Lilacs

Anemone

Anemone

One of the prettiest and most popular spring flowering bulbs; excellent for cutting. Flowers are from 3 to 5 inches across, borne on long stems, and contain many fine shades of blue, white, scarlet and pink. (No particular color can be guaranteed). Plant about 6 inches deep in a cool, moist, but well drained soil. Hardy outdoors if well mulched during the winter, but advise taking them up before ground freezes; store them in a dry place. Blooming size bulbs, 6 for 35c; 12 for 60c; 25 for \$1.00; or 50 for \$1.85.

French Lilacs

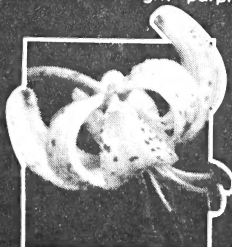

Until you have seen these new Lilacs, you cannot realize how beautiful they are. Immense flower panicles with double florets. They are perfectly hardy. Bloom quickest of all Lilacs, blooming very young—generally the next year after planting. Will not sucker. Carefully budded on hardy under-stocks. We offer them in five colors: Red, Purple, Blue, White and Pink. State choice. Strong, 2-year plants, 45c each; 3 for \$1.20.

FREE! 1 Blue Althea

Martagon Lily

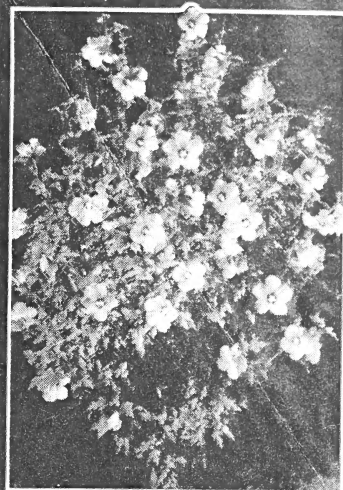

(Purple Turk's Cap)

There are few more beautiful things than the Purple Martagon Lily—very graceful, vigorous and floriferous. Strong growing Lily, producing from 20 to 30 light purple flowers when established.

Grow 4 to 5 feet high, with numerous drooping, purple Turk's Cap flowers, with yellow-tipped stamens. June-July flowering. 50c each; 3 for \$1.25.

← Martagon Lily

Blue Althea

Blue Althea

New! Blue. A rather scarce color in flowering shrubs. Has charming, large, single flowers of a deep blue shade, with a crimson eye. Blooms freely from early summer to late fall. Strong, 2-year, 12-18 inch bushes, 35c each; 3 for 85c.

Rivers' Purple-Leaved Beech

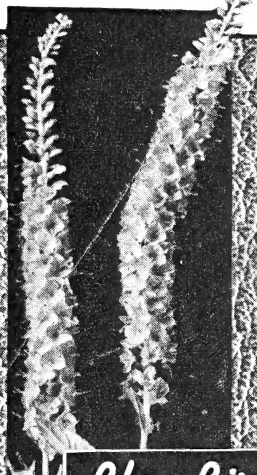

RIVERS' Purple Leaved Beech

(Fagus sylvatica Riversi)

Indeed one of the most colorful and beautiful lawn trees. In the spring the leaves come out a deep maroon, which turns gradually to a dark maroon-purple in summer, and in the fall to a rich purple-brown. Shapely in growth, rich in color, hardy and disease-resistant. Easily grown, long-lived and extremely valuable when fully developed. You will find that you have added the final touch of elegance to your lawn when planting this Beech. We offer the true grafted variety. 12 to 18 inch plants, carefully balled in earth, 90c each; 3 for \$2.40.

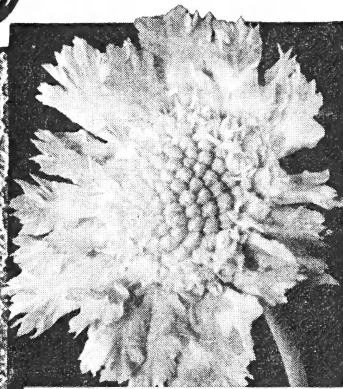

ACKERMAN'S "Big 6" Outstanding Varieties

IN OUR
51ST
YEAR

Blue Bird Veronica

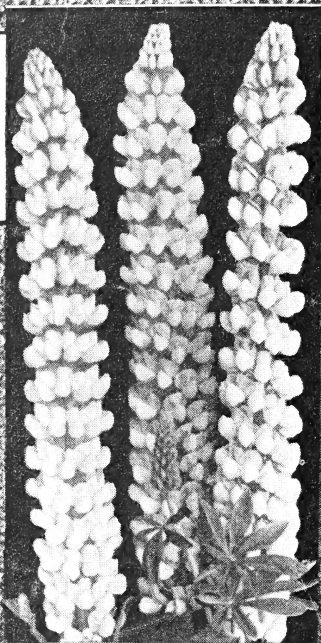

Quantities of richest indigo-blue flowers formed as curved spikes. Blooms all summer. 24-in., bushy plants at maturity. 30c each; 3 for 75c.
